

DEPOSE DOWIE FROM CONTROL

People Of Zion Rally To The Standard Of Wilbur Glenn Voliva, Sunday.

THE WIFE AND SON JOIN SECEDERS

Deputy General Overseer Given Complete Charge Of Affairs Without A Single Vote In Opposition.

[BY ASSOCIATED PRESS.]

Chicago, April 2.—The open revolt against John Alexander Dowie which took place yesterday was followed today by the transfer of all the public property of the church of Zion to Alexander Granger, the man whose dismissal had been directed by Dowie.

Sunday's Meeting

In an impressive meeting in the tabernacle, at which almost every one of the 5,000 residents of Zion City was present, this action was taken after more than five hours of the most severe arraignment of the first apostle. At its close the prophet was without a follower in the gathering, for even his wife, Overseer Jane Dowie, and her son, Gladstone, joined the ranks of those opposing the founder of the faith.

The step came as the climax of the efforts of Deputy General Overseer Wilbur Glenn Voliva, who was named in Dowie's will as his successor and was called to Zion to take charge of affairs when a stroke of paralysis forced the leader to leave his people and go home.

Draws Wrath of Dowie.

The efforts of this substitute to bring order out of the chaos in which the founder of Zion City had left the affairs of the church, and the confidence of those who had come to fear for the future of the community, Voliva ventured to point to what he and the people felt to be the extravagance and mismanagement of the man who had built the city. This drew down upon them the wrath of the "First Apostle," who made one final stand to hold his position.

In reply to Dowie's wrath, the people and Voliva decided to act. The overseer's feeble health was well known. Many persons believed his mind was also affected. Voliva and Mrs. Dowie went so far as to say they believed the affection was serious in the extreme.

Voliva Holds Whip Hand.

Many of those who believe Dowie's faculties to be impaired hopelessly urge that a conservator be appointed for him by a court.

The only other one that may be resorted to is that of asking for the appointment of a receiver. In either case it is aimed to place Voliva in the position of trust, for it is Voliva who now stands at the head of Zion and whom the former followers of Dowie are supporting in the struggle.

Dowie now apparently is left a lonely, old man. Practically shorn of his power, he is in the little Mexican town of Ocotlan, on Lake Chapala, awaiting news of the result of a lengthy telegram which precipitated the crisis in his career.

Telegram Stirrs to Action.

Broken in health, his life almost despaired of, he left Zion shortly before Christmas and went to Jamaica, where he remained until last week. At that time he went to Mexico and it was there that word first reached him of the actions of Voliva.

Then he understood the situation, saw that his substitute was overstepping the authority he had given him, and that a rebellion against him was imminent. Trying to recall his old authoritative manner, he sent a telegram of 800 words trying to stem the tide.

SENSATION CAUSED MANCHURIAN REPORT

Harbin Correspondent Says the Chinese May Attack the Russian Army.

[BY ASSOCIATED PRESS.]

Moscow, April 2.—The Russian Slovo has received a sensational telegram from its correspondent at Harbin, Manchuria, saying hostilities are imminent between the Russian and Chinese troops. He intimates the Chinese are influenced by Japan and are moving forward; that the situation is so tense the Russian demobilization of troops has been stopped and General Grodoff, the Russian commander-in-chief, has issued instructions to prepare for war.

New Sousa-Smith Opera.

Philadelphia, Pa., April 2.—The long-heralded new opera by John Philip Sousa and Harry B. Smith is to have its initial production in this city tonight, and the event has aroused considerable interest among playgoers and music lovers. The opera is entitled "King for a Day," and relates the adventures of a German vaga-

EVERY DAY IS APRIL FOOL AT THIS CORNER

NATIONAL SUPREME COURT RECONVENES

Case of Senator Burton, Convicted in Federal Court, is on the Program.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., April 2.—After a recess of two weeks the United States Supreme Court met at noon today and prepared to take up the several important cases that are on the docket for immediate hearing. The most important case is that of United States Senator Burton of Kansas, who was convicted in the federal courts of illegal practice before the departments and sentenced to pay a fine of \$2500 and serve six months in the county jail at Ironton, Mo. The case comes before the supreme court on a writ of error. The case of Senator Burton will be argued for him by Judge Dillon of New York and Fred W. Lehman of St. Louis.

Oregon Litigation.

Another important hearing on the supreme court docket for today is the demurrer of the government in the case of the State of Oregon vs. Secretary Hitchcock. This case involves conflicting claims to the swamp lands in the Klamath Indian reservation.

Rawlins Cases.

The court expects to take up this week the case of J. G. Milton, Leonard and Jessa Rawlins vs. the State of Georgia, one of the most notable criminal cases that has been brought before the supreme tribunal in a long time. Three of the men are under sentence of death and the fourth to life imprisonment on the charge of murder, committed in Lowndes county, Georgia. They are charged with killing a boy and a girl named Carter in an effort to assassinate an entire family in 1905. The case was brought to the supreme court on the ground that the jury by which they were tried was irregularly drawn.

BITUMINOUS MINES ARE ALL SHUT DOWN

Missouri, Kansas and Western Arkansas Miners Suffer from the Strike.

[BY ASSOCIATED PRESS.]

Kansas City, Mo., April 2.—There is a complete shutdown today in the bituminous coal fields included in the southwestern miners' association in Missouri, Kansas, western Arkansas and the territories. A few mines operated by non-union men resumed operations as usual.

Sign Scale.

The miners' scale of wages of 1903 was signed this afternoon by the Pittsburg Coal company officials. The agreement goes into effect at once and affects 23,000 men in this district.

Sign the Scale.

Murphysboro, Ill., April 2.—The Chicago and Carbondale Coal company today signed the 1903 wage scale for two years.

Seek Control of Road.

New York, April 2.—In financial and railroad circles much interest is manifested in the outcome of the annual stockholders' meeting of the National Railroad of Mexico, which is to be held today in Salt Lake City. At the last meeting the Speyer interests failed to control a sufficient number of shares to obtain the upper hand. Since that time, it is reported, the Speyers have been actively at work, and they believe that they will be able to control the election of the board.

Mrs. Maud Jerome of Andrews, Ind., has filed suit for \$5,000 damages against Jasper Brickley, a saloonist, who she claims knocked her down and kicked her.

IDE SUCCEEDS LUKE WRIGHT AT MANILA

Vermont Man Becomes Governor of Philippines—Inaugurated with Ceremony Today.

[SPECIAL TO THE GAZETTE.]

Manila, April 2.—In the presence of a distinguished gathering of civil and military officers and representative citizens of Manila, Henry C. Ide was today inaugurated as governor of the Philippines in succession to Luke E. Wright. The occasion was made a public holiday in Manila. Governor Ide held a public reception at the conclusion of the inaugural ceremonies, which were of a simple character.

Henry Clay Ide, who took office today as governor of the Philippines, is a native of Vermont and a graduate of Dartmouth College. He was a prominent republican leader of his state when in 1891, he was nominated Chief Justice of Samoa by the United States. He served in Samoa a year when he resigned because of the failing health of his wife. In 1900 he was appointed a member of the Philippine Commission. Governor Ide will serve as chief executive of the Philippines until September 17, when James F. Smith of California, at present a member of the Philippine Commission will become governor general.

TUBERCULOSIS SHOW IN THE WINDY CITY

Similar to Meetings Held in New York, Boston, Philadelphia and Other Cities.

[SPECIAL TO THE GAZETTE.]

Chicago, Ill., April 2.—Governor Deen is to give the opening address this evening at the inauguration of the American Tuberculosis Exhibition. The exhibition is to be held in the Municipal Museum and will continue till the end of April. It is similar to the exhibitions recently given in New York, Boston, Philadelphia and other eastern cities and aims to illustrate in a graphic and comprehensive manner the nature and prevalence of tuberculosis, as well as the efforts being made by the various anti-tuberculosis enterprises in this country and abroad. Addresses and lectures will be given during the month by prominent medical men and others active in the fight against consumption.

PRISONERS ARE SHOT FOR LEADING STRIKE

Natal Prisoners Are Killed for Their Crime According to Court Orders.

[BY ASSOCIATED PRESS.]

Pietermaritzburg, Natal, April 2.—Twelve natives, condemned to death for the murder of policemen during the uprising in February against the collection of the poll tax postponement, whose execution led to a dispute between the imperial and colonial governments, were shot today.

PERSONAL LIABILITY

Washington, April 2.—The personal liability bill passed the house today a division.

The eighteenth annual convention of the National Association of Railway Commissioners will be held in Washington today. The association will discuss electric railways and the duties and work of state railway commissions.

BOSSSES' LAST STAND IN PHILADELPHIA

Have One Hope in City Council—Victory Would Mean Eclipse of Mayor Weaver.

[SPECIAL TO THE GAZETTE.]

Philadelphia, Pa., April 2.—The last year of Mayor Weaver's term begins today with the reorganization of the city councils. Concentrating every energy and plenty of money in a desperate attempt to control the councils upon reorganization, the corporations and deposed leaders identified with the old Burham-McNichol organization have lined up for a final fight with Mayor Weaver and the several reform bodies backing his administration. The remnants of the "machine" is strong only in councils. It has been swept out of every other place of power. Many votes are needed to defeat the mayor, and it is said that to obtain these votes large sums of money are being offered to unpledged councilmen, some of whom are vulnerable because they have accepted gratuities from the once all-powerful organization controlled by Burham and McNichol. If the city party candidates for presidents of the select council and the common council are defeated tonight, it will mean, in the belief of most people, the eclipse of Mayor Weaver and the defeat of every pending measure for civic betterment.

Mayor of Greater Pittsburgh.

Pittsburg, Pa., April 2.—Today's inauguration of Mayor George W. Guthrie was a notable event. A procession headed by the new mayor and the retiring mayor, followed by council and a large representation of the commercial bodies and various other organizations of Greater Pittsburgh, marched from the city hall to the Nixon Theatre, where the new executive took the oath of office in the presence of a distinguished assemblage. Mayor Guthrie delivered an inaugural address in which he outlined the policy he intends to pursue as chief executive of the city.

COMMISSIONERS OF RAILROADS CONVENE

Annual Meeting Opens in Rooms of Interstate Commerce Commission at Capitol.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., April 2.—The annual national convention of railroad commissioners began today at the rooms of the interstate commerce commission in this city and will continue for several days. The convention is composed of the members of the interstate commerce commission, the railroad commissioners of the various states and other state officers whose duties connect them with railroad rate regulation will naturally form the subject of most discussion at the convention. Safety appliances and railway accidents and other live topics also will receive attention.

FOUNDRY EMPLOYEES IN SESSION.

[SPECIAL TO THE GAZETTE.]

New York, April 2.—The International Brotherhood of Foundry Employees, one of the strongest labor organizations affiliated with the American Federation of Labor, assembled in this city today for its second international convention. The gathering was called to order at 10 o'clock this morning by President Frank McAvie. The roll call by Secretary George Bechtold showed a full attendance of delegates from this country and Canada. The sessions are expected to last a week or longer as much business of importance to the craft awaits consideration and action.

HOLIDAY KEPT BY THE MINERS

Coal Mines Idle Today; But Will Most Of Them Resume Tomorrow Morning.

MANY FIRMS YIELD TO DEMAND

Nineteen-Three Scale Is Adopted By Majority Of The Mine Operators—Others Are Falling Into Line.

[BY ASSOCIATED PRESS.]

Pittsburg, Pa., April 2.—Today being the anniversary of the granting of the eight-hour day almost every mine in the Pittsburgh district is closed. It is expected all the mines in the district will be running before the close of the week. The scale committee of district No. 5 met Chairman Francis L. Robbins at eleven o'clock and presented the 1903 scale for his signature. The conference is now in session.

At Springfield.

Springfield, O., April 2.—This being a holiday among the United Mine Workers of Illinois no coal mines are being operated. President Perry of the United Mine Workers said he was busy all the morning answering telephone calls from operators all over the state willing to sign the scale demanded by the miners. The prospect is that a large number of mines will be in operation tomorrow.

Held Meeting.

Columbus, O., April 2.—Chairman Wilder of the operators today announced he had received word from all over their district that not a minor of the forty thousand employed is at work except pummen and engineers.

Out in Iowa.

Des Moines, Ia., April 2.—The joint scale committee appointed by the miners and operators to fix a basis for settlement of the strike trouble in Iowa are here ready for a joint conference tomorrow. The first day of the strike passed off quietly. All the miners are out awaiting the action of the scale committee.

The independent operators in western Pennsylvania held a meeting yesterday and decided to pay the increased scale. The Pittsburgh-Buffalo Coal company, the largest concern among the independents, is ready to concede the increase and resume work. The others cannot hold out with the mines of the Pittsburgh Coal company in operation. This eliminates western Pennsylvania from the strike situation and means that 30,000 men will return to work within a day or two.

Many Operators Will Sign.

There probably will be no general tie-up in Indiana. At Vincennes the Prospect Hill Coal company has announced it will sign the 1903 scale. The operators at Bicknell, it was reported last night, would follow suit, while at Evansville, the Diamond, Worsham, Newburg, Evansville, Banner and Sunnyside Coal companies will sign and get to work as soon as possible.

Dispatches from St. Louis last night said that the owners of the John Taylor mine, the largest in Sinclair county, will sign the scale, as will all the other owners in the district. From various parts of the country the reports last night indicated that

WISCONSIN LOSES IN THE LAND CASE

Supreme Court Says That It Has the Right to Sell the La Pointe Indian Reservation.

[BY ASSOCIATED PRESS.]

Washington, April 2.—President Roosevelt has appointed Rudolph Forster to be first assistant secretary to the President, vice B. F. Barnes, appointed postmaster for the city. The case of the state of Wisconsin vs. Secretary Hitchcock, involving a claim of the government to dispose of the school sections in the La Pointe Indian reservation in Wisconsin was today decided by the supreme court in favor of the government.

Grand Opera in Chicago.

Chicago, Ill., April 2.—The Chicago season of grand opera which opens at the Auditorium tonight will last but one week, but at the same time it gives promise of being remarkably successful. Goldmark's "Queen of Sheba," with its glowing spectacular display, its elaborate ballet, and its five vocal stars, Walker, Rappold, Allen, Van Rooy and Blass, will open the season with all desirable brilliancy. Other famous artists to appear during the week are Eames, Jacoby, Plancon, Scotti, Carnio, Sembrich, Dippel, Knote, Fremstad and Bauermeister.

Rule's Eightieth Birthday.

Berlin, April 2.—The city of Meiningen, capital of the duchy of Saxe-Meiningen, was on fête today in celebration of the eightieth birthday of the reigning duke, George II. He was born April 2, 1826, and has been on the throne since his fortieth year.

PEKIN, ILLINOIS, IS SCENE OF A FAILURE

Private Banking House Closes Its Doors Having Made an Assignment.

[BY ASSOCIATED PRESS.]

Peoria, Ill., April 2.—The private bank of Ties, Smith & Co. of Pekin, Tazewell county, failed to open for business today, having assigned.

ANARCHIST PLOT IS FOUND OUT IN SPAIN

Is Discovered in the Nick of Time to Prevent Its Being Successful.

[BY ASSOCIATED PRESS.]

Madrid, April 2.—The Spanish authorities have discovered an anarchist plot at Lebriza, twenty-nine miles from Seville, a notorious center of the Black Hands, to assassinate the royal family during the visit of King Alfonso, the Dowager, Queen Christina, and the Infanta Maria Teresa to Seville during holy week. Press censorship prevents sending details regarding the conspiracy.

Harry and Theodore Wolfman, two Racine boys, will on July 4 leave Racine for a trip throughout the United States. They go direct to New York, thence south and west to California. On the trip they will distribute circulars advertising the advantages and beauty of Racine. They go on a bicycle and expect to be absent at least one year.

If you found anything advertise it.

ELECTION NOTICE

Office of City Clerk,
City of Janesville, Wis.
March 22, 1906.

To the Electors of the City of Janesville:

Notice is hereby given that a municipal election is to be held in the several wards and election precincts in the city of Janesville on the third day of April, 1906, at which officers named below are to be chosen:

A city treasurer.
A city attorney.
A school commissioner-at-large.
A justice of the peace.

An alderman, supervisor and constable in each ward.
A school commissioner in the second and fourth wards.

The polls in the several wards will be open at 6 o'clock a. m. and close at 7 o'clock p. m.

The polling places in the several wards are located as follows:
First ward—In the street commissioner's room in the basement in the northeast corner of the city hall building.

Second ward—Building owned by Thorngood & Co. at the northwest corner of Fourth avenue and North Main street.

Third ward—Building owned by city on Racine street east of and near South Main street.

Fourth ward—At 53 South Academy street.

Fifth ward—Building owned by the city on Holmes street, near Center avenue.

By order of the common council.
A. E. BADGER,
City Clerk.

COLONIST LOW ONE-WAY

SECOND CLASS RATES

To Tennessee, Kentucky, Nebraska, Wyoming, Kansas, Colorado, Missouri, New Mexico, Texas, Western Louisiana, Arkansas, and Oklahoma and Indian Territories.

Via the North-Western line, will be in effect on Tuesdays, March 6th and 20th. For tickets and full information apply to agents Chicago & North-Western R'y.

Very Low Rates to Second Annual Reunion of Northern Settlers' Association at San Antonio, Texas.

Via the North-Western Line. Meetings are to be held April 20 and 21. Excursion tickets will be sold on two dates, April 3 and 17, with favorable return limits. Apply to agents Chicago & North-Western R'y.

BELL HELPS ON WIRELESS WORK

SEEMS TO HAVE SOLVED ONE OF THE GREAT PROBLEMS.

MESSAGES SENT FROM KITES

Inventor of Telephone May Be Given of Idea That Will Perfect Wireless Telegraphy.

(From William Wolf Smith.)
Washington, D. C. (Special Correspondence.)—Has the problem of aerial transmission of wireless messages across the Atlantic been solved? Some say so, as the results of experiments conducted this week at the experimental station of Dr. Alexander Graham Bell, beyond Arlington, Virginia. Dr. Bell's scientific experiments are probably the subject of more popular interest than those of any other living man, not even excepting those of the widely advertised Tesla and "Wizard" Edison. Possessed of an immense fortune brought by his leisure to scientific experiments utterly divorced from commercialism. His latest effort is in the direction of aerial navigation and structural work with tetrahedral forms, which, if successful, will rank him with genius unfortunately unknown, who conceived the "Keystone" of the arch. The supporting power of tetrahedral forms would lead to kites is something wonderful and it is not surprising that the possibilities of these kites should have been grasped by those interested in wireless telegraphy. Mr. Abraham White, President of the American De Forest Wireless Telegraphy Company enlisted the interest of Dr. Bell and as a result some of the most surprising experiments in the aerial transmission of messages took place.

A tetrahedral kite—the largest in stock—was run up to a distance of fifteen hundred feet by Dr. Bell's representative, W. F. Baldwin, manager of his Nova Scotia laboratory, assisted by G. D. MacDonald, the superintendent of his Arlington experiment station. The kite carried a thin steel wire at the end of which was suspended five hundred feet of antenna wire for receiving the messages. Meanwhile Gen. H. L. C. Dunwoody, U. S. A. (retired) the Washington representative of the company, went to the U. S. Naval Wireless telegraphy station at the Washington Navy Yard, which was erected by the De Forest company and equipped with De Forest apparatus, and from there he sent a long message, in behalf of Mr. White to Dr. Bell. At the receiving station, in addition to those mentioned, were Mr. A. Potter of the U. S. Weather Bureau, and Charles R. Seguin of Patterson, N. J., representing the De Forest company, in addition to several operators. The kite, mounted high into the air, trailing after it the thin steel wire that connected it with terra firma, soon thereafter heard the peculiar buzzing sound that signified a station was sending. It was indistinct at first because of the static electricity in the atmosphere and to eliminate that Mr. Seguin suggested that Messrs. Potter and MacDonald should grasp the former with his other hand on his finger touching the receiver, shaped like a telephone receiver and operating on the same principle. Scarcely had this been done than the operator began to slowly repeat the message sent by Mr. White through Gen. Dunwoody. Mr. White receiving it not only through the air, but down the receiving wire and through the bodies of two men! Later several messages were caught from the Navy Department and from the De Forest station at Galilee, New Jersey, near the Atlantic Highlands, and also from the Steamer Bermudian 350 miles away. The experiment was pronounced and unqualified success and Dr. Bell and Mr. White were greatly pleased. Dr. Bell has loaned the De Forest company the use of his kite and further experiments will take place at the New Jersey station and elsewhere. The message sent Dr. Bell by Mr. White read:

"March 27, 1906. Dr. Alexander Graham Bell, Washington, D. C. 'By De Forest wireless I wish to congratulate you on your achievements in the great art of telephony and express my best wishes for your success in aerial navigation, to which you are unselfishly and nobly contributing your brilliant energies and talented capabilities."

"Having already given to the world more than one man's share or contribution in the direction of creating an invaluable and now indispensable invention making for the progress of the world and the good of mankind, your present efforts and untiring work in another field—the broad and limitless field of atmosphere and ether—indicate lofty ideals which I trust may be as deservedly realized. It is a matter of wireless history that only by the use of the telephone in connection with the De Forest wireless responder has it been possible to develop and successfully operate the great system now in such popular use by the United States Government, and your present co-operation and aid in providing for the use of the American De Forest Wireless Telegraphy Company your tetrahedral kites for aerial wireless communications is most sincerely appreciated. Very sincerely, Abraham White, President."

Later Dr. Bell sent Mr. White the following congratulatory message:

"March 27, 1906. Mr. Abraham White, President American De Forest Wireless Telegraphy Company, 42 Broadway, New York City.

"Thanks for aerogram received today at my kite station in Virginia. Congratulations on the success of the experiment. I sail tomorrow morning by White Star Steamer Cedric, and would be much obliged if you could send me address of Dr. De Forest."

"Dr. Alexander Graham Bell."

RALPH ADAIR FOR DISTRICT ATTORNEY

Republicans of Allen County, Kansas Have Made Him Their Nominee—Not a "Whiskey Candidate"

Ralph Adair, formerly a practicing attorney to Janesville and for the past two years police judge at Iola, Kansas, has been nominated for district attorney by the republicans of Allen county. In his statement of acceptance he says that he does not wish to be classed as a "whiskey candidate" simply because he is opposed to his competitor, Mr. Evans, and that men who violate the prohibitory law will be prosecuted with the same energy as any other class of criminals, if he is elected. Mr. Adair is 26 years of age.

TWO BROTHERS LOST WITHIN FIVE WEEKS

W. B. Stoddard Received Telegram This Morning Informing Him That Elder One Passed Away Sunday

Within the space of little more than a month W. B. Stoddard of this city has been bereft of two brothers. One of them James R. Stoddard, who studied law in Judge Cassoday's office in Janesville before going to Portland, Oregon, to practice, died in the last named city on February 26, at the age of 50 years. This morning a telegram was received by Mr. Stoddard from Horseheads, New York, bearing the sad tidings that his eldest brother, Increase B. Stoddard, passed away at his farm near that town yesterday. The latter was 63 years of age and visited Janesville six years ago, joining the brother here on a trip to Portland, Oregon, on that occasion. Conditions are such that it is impossible for Mr. Stoddard to go east to attend the funeral.

JUNIOR BASEBALL LEAGUE WANT TWO MORE TEAMS

Four Nines of Last Year Remain But a Longer Schedule of Games is Desired.

President Doane Wright and Secretary and Treasurer J. A. Ward with the executive board, composed of captains and managers, of the Junior Baseball League are seeking two more teams to play in the organization this season. The four nines of last year have remained but a longer schedule is desired and consequently more teams are needed. The players must be under sixteen years of age, with an allowance that three are seventeen, but no more, and should be backed by some organization.

STATE VETERINARIAN ROBERTS WILL HAVE AN EXHIBIT IN MILWAUKEE

Exposition of the National Association For the Study and Prevention of Tuberculosis.

Preliminary work of getting together the exhibits to be shown at the coming Milwaukee exhibition of the National Association for the Study and Prevention of Tuberculosis is already under way. The exhibits will be shown by the Milwaukee County Medical society and they are intended to bring more directly to the attention of those visiting the exhibition the care that should be exercised to prevent this disease. An interesting exhibit will be shown by state veterinarian E. D. Roberts displaying the progress made in suppressing the spread of consumption among the cattle of the state.

Big Wheat Yield is Promised.
Tepoka, Kan., April 2.—Reports from the wheat belt say the prospects promise a yield of 70,000,000 bushels. The growing crop never looked better on April 1.

Killed in Card Game Dispute.
Lancaster, Pa., April 2.—During a dispute over a card game, Sunday night involving 5 cents, James Waters, shot and instantly killed Stephen Green.

LINK AND PIN... News for the Railroad Men.

Concerning the question of signals to persons on tracks the West Virginia Supreme court, in Kelly vs. Ohio River Railroad company, (52 Southern Rep. 520), holds that signals must be given as far as possible to a person to hear the signal and get off the track. "Until such a signal is given the trainmen cannot act on the assumption that he will get off the track."

The coal-burning railroads of Texas have asked for bids for 5,000,000 barrels of fuel oil for immediate delivery. The action is believed to be in anticipation of a coal strike.

The mere fact that property belongs to a railroad company will not prevent its condemnation by another company, provided the property sought to be condemned is not in actual use for railroad purposes by the company owning it. The Georgia supreme court in Atlanta and West Point Railroad company vs. Atlanta, Birmingham and Atlantic Railroad company (52 Southern Rep. 320), points out that property acquired and held by a railroad company in anticipation of future needs and not used and not shown to be needed for present use by the railroad company is not private property under the laws authorizing condemnation of private property for railroad purposes.

MARCH AS COLD AS WAS JANUARY

GENERAL AVERAGE FOR BOTH MONTHS WAS 0.5

COAL BILLS WERE VERY BIG

Many Household Weren't Compelled To Buy Again After Thinking Winter Was Over

March was a colder month than either January or December and only a few degrees warmer than February, which proved to be the coldest of the season. The average temperatures for the four months will show more in table form than a discussion and consequently are given:

Month	High	Low	General
December	31.4	24.9	28.1
January	35.5	22.5	30.5
February	35.4	17.1	26.2
March	37.0	22.5	30.5

Thus it is seen that the general average was the same as that of January but 4.3 degrees above that of February. But for three cold days in January the average would have been higher, the thermometer having fallen to 0, 6 and 8 while in March the lowest figure was eight, which point was reached twice.

Big Fuel Bills. The conditions were a big surprise to the majority. The winter had been warm and an early spring was expected by many. Coal bills which had not been sent from time to time, received one month's bill, and the owners had to wait until the middle of the winter. In fact many found that their March fuel bills were as high as for any one month for the length of the month made up for the lower temperature of February.

Typical Weather. There was the characteristic bluster, rain and snow but contrary to the tradition the month was ushered in pleasantly and passed off with conditions very opposite to the headline. Twenty-two days were not clouded, pleasant while the other nine are recorded as clear, fair or pleasant, meaning that the sun shone but not vouching for the beauty of the day. On five days there was snow and on two rain. The table of conditions and temperatures is appended:

	High	Low
1—Fair to cloudy	31	21
2—Rain	50	37
3—Snow	44	37
4—Snow squalls	29	27
5—Beautiful	38	24
6—Cloudy to snow	40	23
7—Cloudy	41	32
8—Cloudy	44	34
9—Cloudy	42	32
10—Cloudy	40	26
11—Clear	34	8
12—Cloudy to snow flurries	23	8
13—Snow	26	14
14—Cloudy	27	13
15—Cloudy	24	14
16—Pleasant	25	11
17—Pleasant	30	10
18—Cloudy	39	16
19—Snow	25	25
20—Clear	32	12
21—Clear	40	23
22—Unpleasant	36	8
23—Pleasant	31	10
24—Pleasant	35	19
25—Sunshine to cloudy	45	22
26—Rain	51	38
27—Cloudy	50	35
28—Cloudy	42	34
29—Cloudy	40	33
30—Cloudy	51	31
31—Clear	50	28

Pop Knew Willie—Say, pop, what's the difference between anthracite and bituminous coal?

Pop—About five dollars a ton.

Labor Notes

The Illinois District Convention of the United Mine Workers of America has appropriated \$5000 for aid of the defense of President Mosier and Secretary Haywood of the Western Federation of Miners.

An appeal has been issued by the American Federation of Labor for financial assistance to the Rock-Knife Blade Grinders' Union and the Chain Makers' Union.

The annual report of the Piano and Organ Workers' Union shows that during 1905 benefits aggregating \$23,282.96 were paid.

A national board of conciliation in the building trades in England, has lately been organized, which already has 134,000 men pledged to give the proposal a fair trial, comprising joiners, masons and bricklayers.

The Secretary of the Department of Commerce and Labor, after announcing the prohibition of convict labor on any federal contract, public building, lock or canal.

The New York Court of Appeals has declared the union shop contract legal and in no sense incompatible with public policy and industrial liberty.

Boston carriage and wagon makers are demanding a nine hour day, closed shop, and a Saturday half holiday.

The French Chamber of Deputies recently almost unanimously passed the long debate on providing for workmen's pensions.

THIRD WARD GIANTS DEFEAT THE SECOND WARD RUNAWAYS

In a game of baseball played on a vacant lot on Milwaukee avenue Saturday afternoon the Third Ward Giants defeated the Second Ward Runaways. The lineup follows:

Runaways	Giants
L. Craig	W. H. Brown
G. Yahn	W. H. Brown
G. Mulligan	W. H. Brown
J. Simpson	W. H. Brown
H. Myhr	W. H. Brown
N. Mulligan	W. H. Brown
S. Pond	W. H. Brown

His Record The Tall Man—I'm proud of my son.

The Short Man—Killed somebody else?

The Tall Man—No, but he killed more often than any other grown-up ward.

Unique Club Dinner Invitations have been issued for the seventh annual ball of the Unique Club, which is to be held at Assembly hall on the evening of April 10, Easter Monday.

Knott & Hatch's orchestra of 18 pieces will play and the ballroom will be elaborately decorated for the occasion.

NEW DEPARTURE IN NAVAL PLANS

Effort to Secure Up-to-Date
Ideas Outside of the
Department.

PERMIT LAYMEN TO COMPETE

Battleship Construction Has Taken a
Backward Turn Since the Close of
the Civil War, According to House
Committee.

Washington, April 2.—Perhaps the most radical and important departure from established practices in construction of the American navy since the introduction of the modern armored vessel was taken the other day when the house committee on naval affairs voted that plans for the proposed new battleship, which it is contemplated shall exceed anything afloat, may be drawn by persons outside of the navy department and that the department shall consider such plans in deciding by whom and how the new ship shall be built.

For some time the department has permitted prospective bidders to offer alternate plans when bidding upon the department's plans. In this case the department may draw plans if it wishes, but it must notify outsiders that their plans will be considered before the type of ship is decided upon and the contract let.

If congress sustains the view of the house, naval committee it will mean the infusion of new thought and young blood into the red tape and conservative methods of the navy department.

Plans Take Two Years.

No better illustration of these characteristics can be suggested than the admission by Admiral Capps, chief constructor of the navy, before the committee that it will be two years before the department can begin preparing plans for a battleship to equal or excel the British leviathan Dreadnaught. This statement indicates better than anything else could the absolute dependence of the navy department upon foreign warship builders for ideas. The theory of the naval committee was that this attitude was unreasonable.

"We believe," said one member of the committee, "that Americans can design just as powerful if not more powerful warships than any foreigner. The history of the American navy up to the close of the civil war proved this. Then the United States led the world in naval construction. Every new and important improvement in naval architecture was the product of American ingenuity and inventive faculty. Foreigners eyed those improvements at first with suspicion. They predicted that they would cause the ships concerned to turn turtle and do other unexpected things. But events proved otherwise."

Seek American Ideas.
"Since the civil war things have been reversed. We are now following the procession in which every other nation of the world leads. Department bureau chiefs say, forsooth, that they cannot build a ship to equal the Dreadnaught, for instance, until they find out how England built it."

Indeed, Admiral Capps even went so far as to say that it would be impossible for a vessel of her tonnage, 18,000 tons, to carry the armor and

armament attributed to her. They insinuate that Great Britain is deceiving the world; that the Dreadnaught in reality is of 19,000 or 20,000 tons.

"I predict that one of the outsiders will capture the prize in having his plans chosen over the department's. I believe the committee has acted wisely in determining upon this course and that congress and the country will endorse its action."

"If logically followed out this plan will surely lead to a return of American laurels to their own and it will not be long before the rest of the world is waiting for our naval ideas to develop before copying them, instead of our navy department depending upon the foreigners for new ideas in warship construction."

TILLMAN BALKS.

Senator Refuses to Sanction Rate Bill
Amendment From White House.

Washington, April 2.—Senator Tillman will oppose the rate review amendment to the railway rate bill which was adopted at the white house conference Saturday night. The senator, who has charge of the bill in the senate, declared that the change which was agreed to by President Roosevelt, several Republican senators who are supporting the house bill and members of the interstate commerce commission, does not meet the situation fully, inasmuch as it makes no provision setting forth specifically that there shall be no suspension of the railway rate fixed by the commission pending the judicial termination of any case which may be appealed from the rate established. This is a contention which Mr. Tillman and many of the Democratic senators have urged, as they argue that a failure to provide absolutely against a suspension of the rate operates to nullify the objects for which the legislation is devised. Senator Tillman declared that he would oppose the amendment on the floor of the senate and he expressed the opinion that not half a dozen of his Democratic colleagues would vote for it. The senator added that he would prefer to vote for the House bill as it stands than to accept the amendment for the pending measure gives the right of review where constitutional questions are involved.

GOODNOW SCANDAL.

Politicians Said to Have Assisted in
Hushing Up Matters.

Washington, April 2.—Publication of the report of Assistant Secretary of State Pierce on the consulate general at Shanghai has brought out the comment that the scandal might have been terminated long before if the state department had acted when the facts were first called to its attention. When Goodnow was summoned home to answer the accusation political influences were enlisted in his behalf, and he was permitted to return to the consulate and resign after being back to Shanghai a week. There would have been no exposure had the house of representatives not asked for the documents. Mr. Pierce went to the far East to investigate matters before Mr. Root became secretary of state. He reports that the Dzonk land case appears to have been a conspiracy on the part of Derby, Hazelton and Goodnow to defraud Dzonk out of his land, which was worth \$72,000. When Mr. Goodnow's court got through with it, only 500 taels remained for the German. It was alleged by Dzonk that Goodnow received 10,000 taels and failed to account to the counsel in the case for the 2,000 taels carried as lawyer's fees.

Wait on Mrs. Storer.

Washington, April 2.—Increased official interest is displayed in the Storer incident, because of Mrs. Storer's statement cabled from Vienna in regard to the president's opinion of Archbishop Ireland, whom Mrs. Storer hoped would be made a cardinal. Officials were not greatly surprised at this word from her, but are wondering how much more she intends to tell. In the diplomatic corps there is much curiosity to know why she said her decision to speak was reached especially upon advice from the Marquis de Reversaux, the French ambassador, in view of the differences between France and the vatican. It is doubtful that the president will make any rejoinder to Mrs. Storer's statement because of her roundabout relationship to the president's family. Soon after the president notified Mr. Storer by cable of his intention to name his successor immediately, Mrs. Storer cabled to Mrs. Roosevelt recalling a letter she already had written to her. When the letter arrived it was returned to Mrs. Storer unopened.

Oppose New Postmaster.

Washington, April 2.—President Roosevelt's sudden appointment of Benjamin F. Barnes, his assistant secretary, to be postmaster of Washington has aroused a storm of criticism. The fact that it was Mr. Barnes who ordered Mrs. Minor Morris ejected from the white house a few weeks ago is being conspicuously cited by those who do not like the nomination.

SPARKS FROM THE WIRES

The fight to save the life of Albert T. Patrick, under sentence of death for the murder of the aged Texas millionaire, William M. Rice, will be resumed in New York tomorrow before Recorder Gott on the motion for a new trial.

The twenty-fifth anniversary of the founding of the Tuskegee institute will be observed at Tuskegee, Ala., on April 4. President Booker T. Washington of the institute, President Eliot of Harvard, Andrew Carnegie and Secretary Taft will speak.

Awakening in the night to find every muscle in his body completely paralyzed was the experience of Carlton B. Knudson, aged 28 years, the son of a wealthy La Crosse county farmer.

JIM JEFFRIES IS READY TO RESUME HIS TITLE

Champion Heavyweight Fighter Needs
Only Adequate Financial Offer
to Again Enter the Ring.

Los Angeles, Cal., April 2.—Jim Jeffries, heavyweight champion of the world, said Saturday in an interview that he had not voluntarily retired from the ring, but had been forced to retirement because there was no one in the world whom the public thought had a chance to beat him. He also said that if the public found a heavy weight whom it believed had a chance with him, he would come out of retirement and defend his title if sufficient financial inducements were offered.

In the course of the interview Jeff spoke unhesitatingly and with startling candor, emphasizing his remarks with forceful gestures, which impressed his questioners with the idea that he really longed for a return to the ring. He said that he did not really fight because of a love for the game, but because it was profitable and carried with it a certain amount of glory, and significantly asked: "Why should I say that I will never fight again when you know money is a big temptation for a man to change his mind and plans?"

Jeffries did not disparage the abilities of the several heavies who are shouting themselves hoarse with their claims on the relinquished title, but said there was no one in sight just now who could give him much of a battle, or who would draw enough to make it worth while for him to resume his ring life.

Mrs. Jeffries is positive her big husband has no intention of ever fighting again, but Jim merely laughs when she makes this statement.

Jeff's interview has caused a great stir here, and already a local fight promoter is discussing the probabilities of inducing Jeff to emerge from his retirement and force Burns, O'Brien and other heavyweights into the light heavyweight class by announcing his willingness to meet any of them in defense of the title.

ELEPHANTS BESIEGE A CHURCH

Cincinnati Congregation Imprisoned
by Stamped Circus Herd.

Cincinnati, Ohio, April 2.—Frightened by the exhaust of a engine Sunday morning, a herd of elephants belonging to a circus in winter quarters at the Carthage fair grounds, broke from the keepers and after a wild charge through the streets of Elmwood place surrounded the First Baptist church and caused a panic in the neighborhood. The congregation was closely imprisoned for half an hour and the Sunday school classes were scattered by the pachyderms. Samuel Krug and Wilbur Wilson were knocked down and trampled by companions in their efforts to escape. The last of the herd was not captured until late in the afternoon.

MAN IS THROWN INTO BONFIRE

Miners in Drunken Orgy Kill One and
Fatally Injure Two.

Charleroi, Pa., April 2.—In a quarrel over kegs of beer in the woods at Twilight, a mining village near here, Sunday, one man was shot to death, two others were so wounded that they are thought fatally hurt, and a fourth was slashed with a knife, a fifth was seriously burned about the face and hands, and a sixth was seriously wounded by a bullet. It is alleged that two of the miners seized a third and threw him into the bonfire which the men had built. The fight then started.

ATTEMPTS TO KILL A PREACHER

Attack With Hatchet Is Made by New
York Criminal.

Eastport, N. Y., April 2.—A mysterious attempt was made Sunday night to murder Rev. John Kopp while on his way to the church where his wife was playing the organ. A hatchet, covered with blood was found by the sheriff in the home of Albert De Paul, organist of the church. De Paul, whose wife is choir leader, is missing. Kopp's condition is critical.

STATE NOTES

Dr. M. H. Hosmer of Ashland, is critically ill from blood poisoning, following an attack of quinsy. Dr. Herrick, a Chicago specialist, will arrive there tomorrow for consultation. Attorney John B. Simmons, one of the officers of the Citizens' Telephone company of Racine, says the Wisconsin Telephone company has not made overtures for the absorption of the citizens' company.

L. J. Mason of Chillicothe, O., was run over and instantly killed by a Wisconsin Central train early Saturday near Fond du Lac. His body was not discovered until after another freight train had passed over it.

One of the worst storms of the year swept Racine and vicinity on Saturday. The wind reached a velocity of sixty-three miles an hour. Trees were broken, signs knocked down, and some telephone and electric light wires broken.

Who Frowed Cat Cabbage?

Tambo—"Mistah Gwynnus, speakin' of a man eatin' his words, did you evah see a man makin' a meal off his opinion?"

Interlocutor—"Why, no, William; I never saw a man making a meal of his opinions. Will you be kind enough to tell me, William, how a man possibly can make a meal out of his opinions?"

Tambo—"Well, sub, when he's ett de 'f' out'n 'em he's still got de 'ons' on, hain't he?"

Interlocutor—"Ladies and gentlemen, the celebrated baritone, Mr. Limbergott, will now sing his pathetic ballad, 'Kiss Me on the Cheek; My Lip Is Cracked.'" Chicago Tribune.

GREAT ENTHUSIASM IS BEING DISPLAYED

Manager Myers Feels Encouraged
Over the Coming Barnhart
Engagement.

Manager Myers has received encouraging reports from his lists for the prospective engagement of Barnhart from Monroe and Edgerton, where a large number have signed the list. Agents for Mr. Myers are working in Evansville and Brodhead today and Manager Myers himself is in Rockford. On Wednesday Manager Myers expects to go to Chicago to close the date with Mr. Gerson if the lists in Janesville are as largely patronized as is now expected. It is a rare opportunity for the Janesville people and will doubtless be well attended by them.

FIVE FROM JANEVILLE WILL ATTEND THE BIG KINDERGARTEN MEETING

International Convention to Be Held
in Milwaukee, Opening
Tomorrow.

Five teachers in the Janesville kindergartens will go to Milwaukee tomorrow morning to attend the International Kindergarten Union convention. Representatives from the entire country and from Canada will be present. Those that will go from here are the Misses Bethana Miller, Mary Jacobs, Nelya Denoyer, Grace Spoon and Ida Callahan.

ROCK

Rock, April 3.—Owing to the condition of the roads there has been but little traffic going on the past week.

The free rural delivery starts on the middle Beloit road Monday morning, April 2.

The busy season has begun at the Kellogg nursery in the line of shipping trees.

Jess Boyes and family of Janesville will work the John Huguana farm the coming year.

Mr. and Mrs. Marcus Kellogg attended the Good Templar convention at Milton Thursday.

J. W. Atkinson and family visited at the parental home Sunday.

There is a rumor that wedding bells are soon to ring.

Mr. and Mrs. Blunk of Afton have moved on the R. Richard farm.

Mr. and Mrs. Jerome Waterman visited relatives in Milton last week.

M. J. Plumb of Milton will work his own land this season.

John Noyes of Chicago is visiting his mother the past week.

Mrs. Marcus Kellogg entertained her sister from Beloit over Sunday.

JANEVILLE MARKET REPORT.

VEAL Calves 5 to 7c.

SINCE OUR ONLY BISHOP IN THE SOUTHERN ALLEGEDLY FACUL OF CASE

[SPECIAL TO THE GAZETTE.]

Madison, Wis., April 2.—The radical reforms involved by the American committee in the revised football rules for 1905 will make little difference with the action of the university faculty with respect to the game, unless President Van Hise, who is supposed to be disposed to hear the prayer of the students and allow the maintenance of football, is able to overcome the strong faculty determination to have no football here next fall. If President Van Hise is able to bring Harvey Holmes here to coach the Badger athletic teams, the faculty may be induced to change its position, but such an eventuality is not looked upon here as probable. For Professors Turner and Slichter, the leaders of the assault upon athletics, seem to be in control with a large majority of the members of the Wisconsin faculty.

Among the students and alumni who have been interviewed the opinion prevails that the rules committee has accomplished a highly creditable and satisfactory piece of work, having provided for such changes and disciplinary restrictions and penalties as to effectually eliminate the features complained of last season and for years previously, without emasculating the game as to destroy the distinctive character of the sport. It is thought here that the province of the faculty is properly to make such internal or intercollegiate changes as will eliminate professionalism, unsportsmanlike conduct and the playing of men not in good standing. It is denied by followers of the sport here that the faculty ought to go into the technical points of the game after the American rules committee has done its work so earnestly and well.

One thing that has been the extreme unpopularity that has befallen professors who have taken the lead in the matter. Professors Slichter and Turner particularly, also Professor D. C. Munro, have been publicly hissed and burned in effigy by indignant students.

Plans for the annual sangeest of the Northwestern Scandinavian Singers' association will be held in La Crosse, Wis., April 6-7, are being completed. Already more than thirty different societies have given assurances that they will enter into the competition and over \$4,000 worth of tickets have been sold.

NEWS OF A PERSONAL NATURE

Miss Ella Mae Brown of Omaha, who is visiting Miss Blanche Sweeney, is to spend the present week in Chicago.

D. W. Watt left for Mineral Point Saturday on business.

Miss Mae Valentine has returned from a visit in Chicago.

J. B. Dearborn of Rockford spent Sunday in Janesville.

Mrs. Edward Peterson returned on Saturday from a visit in Chicago.

Joseph Briggs has joined the Ringling circus at Baraboo.

Mrs. A. P. Lovejoy was a visitor in Chicago on Saturday.

Sid Burdick, has joined the Ringling circus for this season's tour.

Miss Agnes McNeill was a visitor in Sharon yesterday.

Miss Genevieve Decker is visiting in Chicago.

Mrs. F. A. Capelle and Miss Etta Capelle returned Saturday evening from a visit in Chicago.

Former Sheriff Edgerton and Thomas Earle of Madison were Janesville visitors Saturday.

Miss Coleman and Miss Greening were Chicago visitors yesterday.

Fred R. Jones has returned from Hot Springs, Ark., where he sojourned during the month of March to the considerable benefit to his health.

Fred Jeffris, who was home from Chicago for a visit yesterday, is to leave Tuesday for the Pacific coast on business.

Miss Emma J. Paulson left Saturday for Bergen, Wis., where she will spend the week of spring vacation with her mother.

Mr. Straub, a senior in the Chicago Lutheran seminary, occupied the pulpit at St. Peter's church last evening. Mr. Straub has accepted a call at Leedsburg, South Carolina.

Earl Mead, formerly of this city, who is now employed in the C. F. Henry Clothing store in Rockford, greeted Janesville friends yesterday.

N. H. Snow, ticket agent of the St. Paul road at Mineral Point, was in the city this morning.

Frank Fellows, Michael Haley and Neil Heagney visited in Watertown yesterday.

Henry Cody returned this morning from an over-Sunday visit in Monroe. Grant Noyes and family left this morning for St. Louis, where they will be guests of his brother, who is engaged in the offices of Rev. J. I. Hicks, the far-known weather prognosticator.

Mr. Macklehorn of Mineral Point, Superintendent of the Mineral Point & Northern Railway, was in Janesville today.

Mr. Robert Onitz, of East Troy, Wis., was a Janesville visitor last week and was accompanied by Mr. Plout, also of that city. After investigating different lines of vehicles, Mr. Plout left his order with the Wisconsin Carriage Co. for the complete outfitting of a new livery which he is about to open in East Troy. He considers theirs the finest line he has ever seen.

Miss Margaret Clark, who is a student at Beloit college, has returned to the Line City after having spent her vacation with friends in Janesville.

Mr. and Mrs. H. F. Bliss returned from Cleveland, Florida, Saturday evening.

David Jeffris of Chicago spent Sunday in this city.

H. Fisher and Miss M. Landis of Baraboo were Janesville visitors yesterday.

Frank McElowny of Los Angeles, Cal., is a guest at the home of Dr. Q. O. Sutherland.

W. W. Snyder of Rockford was in the city yesterday.

The Misses Marie Freeberg, Hilma Jespersen, and Inga Gustafsson of Rockford were Janesville visitors yesterday.

O. C. Schulz and John C. Mischot of Brodhead were in the city Saturday night.

Harry Holbrook arrived in the city from Chicago this noon to attend the meeting of the election of officers of the Janesville Chautauque association to be held at the Hotel Myers tonight.

W. F. Frenz of Baraboo was in the city yesterday.

Mr. and Mrs. John P. Williams of Shullsburg were Janesville visitors Saturday night.

J. G. Monahan of Darlington was in the city Saturday evening.

George H. Mott of Brodhead was a Janesville visitor Saturday night.

J. C. Wengor of Monroe is in the city today.

Irving Allison and Don Jeffris returned to Beaver Dam to school today.

System.

"Maria, what's the use of your telling the girl to be sure and wake you at 6 o'clock? She does it every morning, and you never get up."

"John, I don't want you to interfere with my way of running the house. I know just what I am doing. When that girl calls me at 6 o'clock I know she's up."—Chicago Tribune.

RHEUMATISM TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative, because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

Vote the republican ticket.

In the First vote for Merritt.

Vote the republican ticket.

Vote for Maxfield for city attorney.

Vote for Watt for alderman in the Third ward.

Vote for Dunwiddie in the case of the "people versus the lawyers."

Retain the circuit judgeship in Rock county and vote for Dunwiddie.

Vote for Grant for school commissioner in the Second.

"Jim" Fathers needs your vote for city treasurer so vote for him.

Be sure and vote against the Dunn pocket ballot law.

Vote for Buchholz for alderman in the Second ward tomorrow.

Do not forget to vote against the Dunn pocket ballot law.

Remember Harry Carter wants your vote in the Fourth for alderman.

Maxfield is the republican candidate for city attorney and be sure and cast your vote for him.

Vote for a supreme court judge. Timlin appears to be the choice of the men who have followed this matter closely.

Do not be the monkey to pull the chestnuts out of a fire for the lawyers and cast your vote for Dunwiddie.

Do not let a coterie of attorneys dictate how you shall vote. Exercise your rights of franchise and vote for Judge Dunwiddie.

As the situation now appears it is Dunwiddie or Grimm. Of the two select Dunwiddie and retain the judgeship at home.

THE CITY TICKET.

In the heat of the judicial campaign do not forget the republican ticket and vote for it from top to bottom.

Vote for James Fathers for city treasurer, vote for Jesse Earle for justice of the peace, vote for H. L. Maxfield for city attorney, vote for Arthur Fisher for school commissioner and then cast your ballot in your respective wards for the republican nominees.

The fact that the republicans should be a guarantee they are good, true men and deserve your vote.

THE LAST WORD.

The judicial campaign closes tomorrow. Tonight is the last opportunity

The Gazette has of appealing to its readers to vote for Judge Dunwiddie and save the circuit judgeship for Rock county. Judge Sale's closest friends practically concede the fight now lies between Judge Grimm and Judge Dunwiddie. One if elected will take the headquarters of the court to Jefferson county. Judge Dunwiddie's election means that it will remain here. In casting your ballot tomorrow remember this: Vote for the protection of your interests by voting for Judge Dunwiddie.

IN THE SECOND WARD.

Strong opposition to Francis Grant the republican nominee for school commissioner in the Second ward has been brought into play by men who are angry at him for his support of Judge Dunwiddie. Men who have served on the school boards from their wards have come to the front and shown the cloven hoof by interfering in Second ward politics, to defeat Mr. Grant for the school commissioner's ship to satisfy an old grudge. The voters of the Second ward are appealed to in this matter. To their fairness and honesty the question is asked: "Should this be permitted?" No, and tomorrow you should repudiate such methods by casting your ballot for Francis Grant for school commissioner.

THE CAMPAIGN OVER.

Never has a more bitter judicial campaign been waged in the twelfth circuit. Originating as it did at a December meeting of the Rock County Bar Association it has extended over nearly four months making it probably the longest on record. Bitter things have been said by both sides of the local end of the campaign. Doubtful statements have been printed and refuted, and all the tricks known to politicians have been brought into play. Columns of space in all the papers in the circuit have been used freely, thousands of circulars have been sent out and there is not a voter in the entire twelfth circuit that does not know the points at issue. As the campaign closes the two men standing most prominently before the people of Rock county are Judges Dunwiddie and Sale. Both are honest men. Both have made good judges. Both are good lawyers. To choose between the two as man to man would be hard. But another element enters into the selection. Judge Sale is not known personally outside of Rock county. His following in Jefferson and Green counties is meagre. Judge Grimm is making a campaign in Jefferson and Rock and Green counties that bids fair to secure his election. Another element that has entered into the contest is the appearance of Judge Becker of Green county. He will control some votes at least in Green county, some in Jefferson and a few in Rock. Of these three men Judge Grimm is the strongest. On the other hand Judge Dunwiddie has strength in all three counties. Has warm friends in Green where he was born. Good friends in Jefferson where he has long practiced law and for the past seven years sat upon the circuit bench. In Rock he has friends by the score. He is stronger than the others in the circuit as a whole, but to win must have a good endorsement in Rock county. Rock county is really the pivot of the whole campaign. Upon the vote of Rock county hangs the question whether it will be Grimm or Dunwiddie who will be the next circuit judge. The removal of the court from Rock county to Jefferson would be a hardship upon the lawyers, the taxpayers and the public at large. By removal of the court is meant the open term of the court. Of course the regular term will be held in Rock county, but there are many matters which need immediate attention which if the court was at Jefferson for its open term would cost the attorneys their time to see the judge and the clients the money to pay for that time including railroad fares. It would make the expenses of legal matters greater and this item alone is one of importance to Rock county where ninety per cent of the business of the circuit is conducted. Consider this tomorrow and vote for Dunwiddie.

ARE DESPERATE NOW

The managers of Judge Sale's campaign are desperate. As the last argument in the judicial campaign they have vilified Judge Dunwiddie. It is the trick of a beaten politician. It is not worthy of a judicial campaign. Those who know Judge Dunwiddie personally know how utterly false are the lying statements that have been circulated within the past two days. As the Gazette has said before, it is the people, the taxpayers, against the lawyers. It is a case of elect Judge Dunwiddie or see Judge Grimm elected. Close friends of Judge Sale say so in so many words. This juggling and playing with facts, distorted to suit the purpose of the attorneys who seek to delude the people, should be brought up with a short stop. The Gazette has maintained that Judge Sale is an able, just, an able lawyer and a man worthy of confidence and trust. It has espoused the cause of Judge Dunwiddie because it believed that in Judge Dunwiddie's election was the only solution of the saving of the judgeship for Rock county. Facts which have appeared in the columns of this paper from time to time have verified this statement. Unless Judge Dunwiddie is elected tomorrow Judge Grimm will be the next circuit judge. The people, the voters, the taxpayers, are called upon to rise in their might and rebuke the lawyers who have brought this situation upon the county and rebuke them for daring to dictate how the freeholders of Rock county shall vote to satisfy a private enmity that exists between a Judge whom they can not dictate to and themselves.

WHY YOU
SHOULD VOTE FOR
JUDGE DUNWIDDIE

The judicial and educational offices have been separated from the political offices through a general demand of the people and the sentiment does credit to the intelligence and honesty of the American people. If there are branches of political economy that politics should be entirely eliminated from, they certainly are those of education and judicial. No one but politicians now attempt to drag into the mire of politics these branches and whenever it is attempted the stamp of public disapproval should be unmistakable. The purity and efficiency of the judicial branch of the government depends largely on its separation from politics. Since Judge Dunwiddie's elevation to the bench no man in the state has been less of a politician. Recognizing that his appointment and election were strictly upon non-partisan lines, his present campaign, so far and above-board, cannot help but impress the public and add to that reputation of integrity which is one of the chief characteristics of the man, the scholar and the jurist.—Monroe Journal.

Vote for Judge Dunwiddie tomorrow and save the Judgeship for the county.

THE POSITION

The Gazette has published during the past campaign articles signed by the four candidates for circuit judge. It has charged so much per line for them. Even in the heat of the campaign, in last Saturday's weekly, it published a statement paid for by Judge Sale's supporters. Its news columns are open to paid articles at all times, which, however, are subject to approval. Its editorial columns can not be bought with money. The Recorder has also published statements from each of the candidates. On March 10 an editorial on the Judicial Situation from the Jefferson Banner was published in the columns of the Recorder. Doubtless this mercenary support of the Recorder will not affect the chances of that Judge. In supporting Judge Dunwiddie for reelection, in its editorial columns the Gazette has repeatedly stated that it did so believing that in his election was the only solution of the saving the court to Rock county.

PRESS COMMENT.

Dramatic Comment From Sheboygan. Sheboygan Journal: Madame Bernhardt played "Camille" the other night in a tent at Dallas, Tex. The ventilation was so good that nobody complained of the play.

The Almost Forgotten Lehnroth. Milwaukee Journal: Mr. Lehnroth, who is a Swede, should not forget that the Wisconsin Norwegians got their freedom long before Norway got a king.

No "Square Deal" on the Track. Chicago Record-Herald: Hoccus Pocus is the name of a horse that has recently been winning some big races. Senator Tillman will insist that this is merely a sign of the times.

Dogs and Other Dogs. New York Herald: Some folk are astonished because a Chicago man left \$20,000 to a dog, but they do not wink an eyelash when told that some young puppy has inherited a fortune.

High Trapeze for Sarah. Chicago News: If Mme. Bernhardt really wishes to thrill Texas with her tent performance she should arrange to play Camille's death scene on the high trapeze.

Exactly. Superior Telegram: The average young fellow is willing to be a breadwinner, but the trouble is he sometimes marries a girl who has been used to pie.

Right in the Way. Exchange: Jim Davidson appears to be laying his live wires near the surface, not underground, and some of the other candidates are liable to trip up in their scramble for office.

Was She Only Bluffing? Exchange: There has been another postponement of the Castellane divorce case. Perhaps, after all, Anna was only trying to see how many promises she could exact from the court by carrying her bluff almost to the limit.

Why Not Abolish the University? Evening Wisconsin: It is a notable fact that last night's riotous demonstration by the students at Madison had its origin in the "frat" section. It wouldn't be a bad thing for student life if the "frats" could be abolished with football.

Wallace, the Runaway. El Paso Herald: John F. Wallace, runaway engineer of the Panama, undertaking, is firmly of the opinion that the sea level scheme is better than a lock canal. But he fails to explain why he did not stay and build it that way while he had the chance.

PRINCE ARTHUR VIEWING THE
RANGES OF THE ROCKIES[SPECIAL TO THE GAZETTE.]
Vancouver, B. C., April 2.—Prince Arthur of Connaught and his party left Vancouver yesterday and according to schedule are spending today in the wilds of British Columbia viewing the scenic splendors of the Rockies. The party will dine and sleep aboard their train which is one of the finest that ever has been run anywhere in America. The train consists of the palatial cars Cornwall, York and Canada, and is in charge of Mr. W. R. Baker, as the personal representativeof Sir Thomas Shaughnessy of the Canadian Pacific Railway.
Banff, Alta., April 2.—The people of Banff are making great preparations for the reception of Prince Arthur of Connaught. The royal party are due to arrive here early tomorrow afternoon and will spend the greater part of two days in this vicinity. It is expected that Prince Arthur will engage in a hunt for large game during his stay here. From Banff the party will proceed to Calgary.Trying to Stop the Landslide.

Campaign Credit to Candidates.

(Published by request.)
Monroe, Wis., April 1.—On the eve of the judicial election Judge Becker made this review of the campaign:

"The contest for circuit judge of the Twelfth district has been spirited, but nevertheless a friendly one. It has been free from personalities, and has been conducted in an honorable and dignified manner which is a credit and honor to the candidates as well as to the district. The press has been fair and is entitled to commendation. I expect to be elected. I will receive practically the solid Bryan democratic and La Follette republican vote in the district. I will carry Green county by a large majority and will be second in Jefferson county and will carry over 1,000 votes in Rock."

Marriage Licenses: Applications for marriage licenses have been filed by August Brechlin of Woodford and Mrs. Ernestine Krieger of Rock county; Arthur E. Powers of Evansville and Amanda Utzig of Magnolia.

HOW BROADHEAD IS AS TO JUDGESHIP

OVER A HUNDRED SIGN CALL TO SUPPORT DUNWIDDIE.

TO HAVE A BIG MAJORITY

Statement Made by the Prominent Men of the Community as to Exact Situation.

(By request.)
Broadhead, Wis., April 2.—To the qualified electors of the Twelfth Judicial District: Whereas, a statement has been issued and circulated quite extensively, in this vicinity, setting forth the belief that it is not possible to re-elect Judge Dunwiddie and that, therefore, it is wise and expedient to support Judge Sale,

Now, therefore, we, the undersigned electors of said district, wish most emphatically to deny, and contradict said statement and furthermore to express our sincere belief that it is not only possible but is assured that the electors, especially the taxpayers, will very largely support Judge Dunwiddie.

We know positively that a very large majority of the electors of Broadhead and vicinity are supporting the judge for re-election and will vote for him tomorrow.

Respectfully submitted,

ON OPINION

Broadhead, Wis., March 31.—My attention has been called to statements being circulated that Judge Sale will get as many votes in Green county as Judge Dunwiddie. The statement is absolutely false and misleading. In fact, it is doubtful if Judge Sale will get fifty votes in the county. I make this statement in the interest of fair dealing.
JOHN W. GARDNER.

LATE LOCAL NEWS IN BRIEF

Mrs. C. A. O'Brien will have her millinery opening Wednesday, April 4. New spring styles of wall-paper at Skelly's bookstore.

Circle number four of the Cargill M. B. church will meet at two o'clock Tuesday afternoon, April 3, at the home of Mrs. E. W. Lowell, 152 Ravine street. By order of Vice-President Mrs. E. J. Bennett.

Easter sale opens at the Presbyterian church at one o'clock Wednesday, April 4th; supper from 5:30 to 7:30. We show a fine line of wall-paper. All new styles and patterns. See our fine line and get our prices before you buy. Skelly's bookstore.

Easter sale opens at the Presbyterian church at one o'clock Wednesday, April 4th; supper from 5:30 to 7:30. The ladies of St. John's church will give a supper Wednesday, April 4th, in the Galoponian rooms. Everyone welcome.

Window shades, room mouldings and curtain poles at Skelly's bookstore.

Easter sale opens at the Presbyterian church at one o'clock Wednesday, April 4th; supper from 5:30 to 7:30.

LOCAL BRIEFS.

Drunks in Court: On his plea of "guilty" to the charge of drunkenness in municipal court this morning James Tiffany was given the alternative of paying a fine of \$3 or spending six days in jail. He was unable to pay the fine. The case against John Little was adjourned pending good conduct.

This Sounds Well: The Baxter mine, south of Platteville, has installed eight extra sets of jigs. Thirty-two men are on the payroll. This is one of the heaviest producers in the district and is owned chiefly by Janesville people.—Mining Report.

Manager Peter L. Myers left this morning for Rockford, where he is to attend to the listing of those who are going to witness the Sarah Bernhardt performance in Janesville.

The annual stockholders' meeting of the Janesville Chautauqua association will be held Monday evening, April 2d, 7:30 p. m., at the Myers house parlors. All subscribers to season tickets for this year and those who will subscribe at this meeting are entitled to a vote. Directors for the coming year will be chosen.

JANESVILLE CHAUTAUQUA ASSN.
By Rev. W. A. Goebel.
P. H. Korst, Sec'y.

At a meeting of the executive committee of the Winnebago district of the Congregational church it was decided to hold the next convention in the first Congregational church over built in Wisconsin, which is located at Stockbridge on the east shore of Lake Winnebago. The convention will be held on June 4-6.

Read the want ads.

WILSON LANE HAS MADE A STATEMENT

Substantiates the Rumor That Unfair Methods Were Used in Campaign.

(Published by request.)
Frequent allusions have been made in the columns of the Gazette during the past judicial campaign just closing to the effect that at the outset attorneys favoring Judge Sale's candidacy stated to persons they asked to sign the Sale petition that Judge Dunwiddie was not a candidate and would not be one. The following communication from Wilson Lane on this subject substantiates this statement and also the statements that it is the "Attorneys vs. the People." The communication follows:

To the Editor: "When they first started to get signers for Judge Sale's papers two lawyers, George Sutherland and Fred Burpee, came to me and wanted me to sign a paper for a call of the lawyers to decide the matter of a candidate for judge and these two lawyers said to me that Judge Dunwiddie would not be a candidate for re-election. I refused to sign any paper, take any action against Judge Dunwiddie or do anything that would bind me in the matter. They said that Judge Dunwiddie would not be a candidate because nobody wanted him. Then several weeks after this and after Judge Dunwiddie's nomination papers were numerous signed and while I was circulating them myself I went into a store on Milwaukee street to secure signers for Judge Dunwiddie and these gentlemen told me that they had signed Judge Sale's papers and that Mr. Burpee who presented the paper to them said that Judge Dunwiddie would not run for judge and was not a candidate. Going down the street I met Mr. Burpee at the foot of the stairs going up to his office and he called his attention to what he had told these parties and I told Mr. Burpee that he was not authorized to make this statement that Judge Dunwiddie would not be a candidate and he is now nominated and I have one of his papers in my pocket with numerous signatures upon it. And I submit that you have no business to make this statement; that you should stop making it. Mr. Burpee replied to me and insisted that Judge Dunwiddie would not run for judge because all the lawyers were against him and for Judge Sale. I contradicted this statement saying that there was no more truth in this statement than in his other statements. Mr. Burpee then left angry because I had taken him to task for his statements. WILSON LANE.

TO THE VOTERS.

With other good citizens of the state, you appreciate the importance of having the supreme court of the state as strong as it is possible to make it and that you are interested in securing the best man obtainable to fill a place on that bench. Judge James O'Neill of Neillsville is most admirably fitted for this important position. He has been judge of the 17th circuit for ten years and has made a record which has been equalled by but few of the circuit judges of this state. He has the courage and ability to administer the law with unquestioned fairness. Another point to be considered is from a geographic standpoint. The northern part of the state has at present one representative on the supreme bench, Judge Marshall of Chippewa Falls, all the other five jurists representing the eastern and southern portions of the state. The voters of Janesville and Rock county should support Judge O'Neill Tuesday at the polls to aid the northern part of the state, as it will not be long before Rock county will desire aid in sending some prominent attorney to fill the place of the Hon. Chief Justice Cassidy who by reason of age will likely retire in a few years.

VOX POPULI.

(By request.)

Janesville, Wis., March 31.—Dear Gazette: The enclosed clippings were clipped from Janesville Recorder of 29th and 30th inst. I have intended to support Judge Dunwiddie for circuit judge and shall vote for him even if he is the incompetent that the Recorder voices. The writer of this editorial of the Recorder seems to imply that Judge Dunwiddie does not do the right thing for fear he may do wrong. I looked for some kind of an answer to this scurrilous language in the Gazette last night, but failed to find it. Voters ought to turn down such methods by voting for Judge Dunwiddie.

Yours for fair play,
M. D. ERNST.

IN A MINOR KEY.

Works Like Magic Sometimes.
Caller: "Have you ever known any cures effected by what they call suggestion?"
Mrs. Hewjams: "O, yes; I once cured Willie of a violent toothache by suggesting that he go to the dentist's and have the tooth extracted."—An Exchange.

MANY ACCIDENTS IN SHORT TIME

MISS GERTRUDE SKAVLEM SUFFERED FRACTURE OF ARM.

MAN FELL FROM R. B. & J. CAR

Everett Warren Broke Leg and Received Scalp Wound—Bernard Dunwiddie Sustained Fracture of Arm.

Miss Gertrude Skavlem, assistant librarian at the Carnegie library, suffered a compound fracture of the left arm yesterday while driving a fractious horse. Miss Skavlem and Miss Gertrude Buchholz were driving a lively animal when the animal took a fright and started to run. Miss Skavlem, who was driving, managed to bring the animal to a stop and it immediately began kicking furiously, reaching its heels over the dashboard and catching Miss Skavlem on the arm, breaking both bones between the wrist and elbow. The accident occurred on Prospect avenue. Miss Skavlem was at once removed to the home of her parents, Mr. and Mrs. H. L. Skavlem, where the injured arm was set. In pulling the frightened animal down Miss Buchholz injured her hand, pulling the thumb nail off entirely.

Fell From Caboose.
While switching in the St. Paul yards yesterday, Bernard Dunwiddie fell from the top of a box car caboose and received a fracture of the left arm. The caboose had been "kicked" onto a siding and Dunwiddie was on top to break it when it cleared the main track. In attempting to climb down he caught his foot in a grab iron and fell onto his left arm. The bone was broken near the elbow. Mr. Dunwiddie, but recently returned to work after being confined with an injury to one foot, the member having been crushed under a wheel while at work near the freight depot on North Main street.

Leg Broken and Scalp Cut.
Everett Warren, aged fifty-nine years and a brother of George Warren of 109 Pearl street, fell from an interurban car just below the first substation south of the city last evening at half past five o'clock and suffered a compound, comminuted fracture of the femur of the right leg and a scalp wound four inches long. He was standing on a platform of the car, being en route to the John Huggins farm, where he was going to work. Just beyond the substation a bundle slipped from his arms, and he in attempting to gain possession of it fell from the car, which was travelling at the rate of speed usual in the country. The injuries were serious and he was brought here for medical aid and attendance.

POLITICAL CHAT ON POLITICAL MATTERS

Bits of Gossip Heard About the Street Today—What May Be Expected.

"Did you read that bitter personal attack on Judge Dunwiddie yesterday," said a citizen yesterday. "Well, it just proves what the Gazette has said; that it was the case of the lawyers against the people."
"Say, those Recorder articles make me smile. Everyone knows they are paid for and that March 10 they published an editorial endorsing Judge Grimm at so much per line and later they were told to be real good or Joe Doe would be set after them if they did not," said a boot and shoe man this morning.

"I am glad this fight for the judgeship is over. It has been the bitterest I ever experienced," said an old-time politician this afternoon.
"Political predictions of all kinds were offered in the cigar stores and restaurants this morning. J. W. Richardson, sealer of weights and measures, hinted some words which he might be induced to make. When someone suggested that Judge Dunwiddie would have more votes than Judge Sale in the district he admitted that, but while predicting that Judge Grimm was the winner, announced that he was going to vote for Judge Sale. He would not agree with those who held that personal sentiment should be thrown aside in an effort to keep the 'open term' of the court in Rock county."

"Judge Dunwiddie's going to win."

and don't you forget it," said Al Smith, Sr. "There's been a big change of front in the last few days and it's nearly all in his favor."
"Judge Sale is going to lose a good many votes in the country, simply on account of his popularity," said George Appleby. "He has been an admirable county judge and has been so careful and painstaking in the conduct of their business that the farmers want him to stay at his post. They don't care to take any chances on his successor."

"C. D. Ross will win out with 500 plurality," said District Attorney John L. Fisher. "He is going to make a big vote in the country where some effective campaigning has been done."
"Edwin Rife, who makes daily trips to Beloit, has made many inquiries regarding the situation there. He is confident that Judge Grimm will poll a large vote with prospects of carrying the city, and that Judge Becker will have a considerable following."

Marian Ross of Exeter, county writes today that in his town the sentiment is strongly for Judge Dunwiddie and very little, if any, talk of Judge Becker.

A letter from a New Glarus, Green county resident received today says that the writer, Mr. Schmidt, believes New Glarus will give Judge Dunwiddie a majority.

Conflicting reports are heard regarding the judgeship question from the towns of Turtle and Johnstown. Both the Dunwiddie and Sale men make claims for their respective candidates.

House to house and store to store canvases were made today by the supporters of the judicial candidates. It is reported that Mrs. Fred Sutherland and W. D. Morrill are candidates for the position of health officer, to be selected by the new council to be elected tomorrow.

"Say, the feeling in Green county is just as bitter as here in Janesville over this judgeship question," said a traveling man today. "The only difference is that there you hear Dunwiddie and Becker and here Dunwiddie and Sale. Say, but Dunwiddie is going to have a big vote."

"Bill" Bates, who said he was in the city last night and said he would not be surprised to see himself elected by fifteen hundred majority, although you never could tell. "Watch, but I thought this judgeship fight was hot in Janesville," said an attorney this morning, "but if you want to get into a hot political wrangle just go down to Beloit and watch them fighting over their mayorship question—two Irishmen fighting each other like cats and dogs."

Finger Badly Pinched: Charles Blow, employed in Nott Bros. paper box manufactory, had the end of his right index finger badly pinched in a machine this morning. Dr. Charles Sutherland attended him. The injury will not be permanent.

TRAMP KILLED NE EDGERTON ON SUNDAY

Walked Into the Four Twenty-Four Morning St. Paul Passenger Train.

On Sunday morning a man supposed to be a tramp walked directly into a Chicago, Milwaukee and St. Paul train one mile and a half east of Edgerton, and was instantly killed. The man was a stranger in that vicinity and nothing to identify him was found on his person except a discharge from a Milwaukee hospital. He was plainly dressed and middle aged. Apparently he was deaf and did not hear the train, as he walked directly up to the engine. The accident occurred shortly after four and the train was the one arriving in Edgerton at four twenty-four. The body was removed from the scene of his death to the depot and unless identified will be buried at the expense of the county.

OBITUARY

Mrs. Ariel Worthing.

At her home in Magnolia Tuesday morning, March 27, occurred the sad and sudden death of Mrs. Ariel Worthing. The cause was heart trouble and she deceased was sick but twenty-four hours. Etta Preston was born in Monroe Apr. 28, 1872. When about fourteen years old she came with her parents to Albany, where she resided until her marriage to Ariel Worthing Nov. 28, 1889. To this union were born eight children, all surviving. Harry, 16 years of age; Vernon, 13 years; Frank, 11 years; Charley, 8 years; Mabel, 5 years; Ruth, 3 years; Lon, 2 years; and little Alma, 9 months. Besides her broken-hearted husband and children she leaves a father and mother, two brothers—Will of Beloit and Charles of Lake City, Iowa—and one sister, Mrs. Lou Kaufman, also of Beloit, all of whom were present at the funeral. The deceased was of an unusually cheery and pleasant disposition. The family are left to mourn the loss of a faithful and indulgent mother, an exemplary daughter, and a true, sympathetic sister. She was always ready to lend a helping hand when opportunity permitted. The entire community is in mourning and extend sincerest sympathy to the bereaved ones. The funeral was held in the A. C. church at Magnolia Corners, where, despite the bad roads a large concourse of friends had gathered to pay a last tribute of respect to the deceased. Pastor Ed. Lukke officiated. After the services she was tenderly laid to rest in the cemetery beside the church.

Mantle Clocks

8 Day
Half Hour Strike

One of our firm recently visited the western show rooms of the largest manufacturers of clocks and purchased about

40

at a very low price. We have marked them accordingly, placing some in our show window that everyone may see the fine finish, neat designs and various styles. We are offering these at very low figures and warrant them one year.

WHY YOU SHOULD VOTE FOR Judge B. F. DUNWIDDIE FOR CIRCUIT JUDGE.

The Only Candidate Strong in All Three Counties of the Circuit

JUDGE B. F. DUNWIDDIE,

an honest, upright man, who has had thirty years of training and experience in the law, in the prime of life and health, a good judge, should be re-elected to his present position.

READ THE LETTERS OF EDWARD H. RYAN, BERNARD M. PALMER AND J. P. TOWNE, all well-known attorneys of Rock County, which have appeared in this paper, who say, in vigorous language, over their own signatures, what they think of the opposition to Judge Dunwiddie, and the use of their names as opposing him. Other Rock County attorneys, who, for business reasons, do not desire their names published, make like statements privately. Out of 112 lawyers in the circuit only **SIX** actively oppose Judge Dunwiddie.

JUDGE DUNWIDDIE is the only candidate strong **IN ALL THREE COUNTIES** of the circuit. He has a wide acquaintance and loyal friends in all of them. He will receive at least one-half the vote of Rock County, will certainly carry Green County, and will get a very large vote in Jefferson County. A vote for any other candidate is a vote to throw the circuit judgeship out of Rock County.

Should an able, upright, fearless judge be forced to go through a campaign for re-election when no one urges one reason why he should not be re-elected, except that a few lawyers oppose him?

In this state it has been for many years the custom not to lightly change our judges; to let them feel that while they are fitted to do their work and do it well, that their position is secure against attack. Under this condition a judge can do his duty fearlessly; he need not feel that his place depends upon his pleasing any particular lawyers or any particular interest. Are we to change this and make our judges timid about offending certain men or parties or interests? **Vote for Benjamin F. Dunwiddie for Circuit Judge on April 3d, 1906.**

IN THE LAND OF PROFITABLE OPPORTUNITY.

BY WILLIAM L. LARKIN.

UNCLE SAM never in the history of the nation was more profuse in his provision for the home builder than he is today. The love of the soil is inbred in the race. It is responsible for the pioneering spirit which has ever sent men westward, driven the frontier toward the setting sun, and built up in the Mississippi valley and beyond an empire now just on the eve of its fullest greatness.

This year will be marked in the history of the homeseeker and settler. The government will on June 15 open to settlement under the United States homestead law over 1,000,000 acres of land in the foothills of the Wind river range and on the plains of Wyoming.

Any freeborn citizen of our country can secure his quarter section free of cost for the nominal land office fee and the sum of one dollar and fifty cents in easy payments, and the government land department at Washington is now ready to give information to all inquirers.

The region covered by this reservation is being rapidly brought within easy reach by an extension of the Chicago & Northwestern railway to Lander, in the Lander valley. Here the government land office is situated and the allotment of claims next June will probably be made here and at Shoshone.

This is one of the finest grazing districts in the west and it is quite probable that the region will with the new railway facilities develop into a cattle and sheep feeding region greater than ever before.

Would Sustain 5,000,000 People.
The state of Wyoming, which has an area of 97,330 miles, has sufficient agricultural and mineral resources to sustain an army of 5,000,000 people, yet the estimated population is only 120,000. Wyoming today has more miles of railroad and more natural advantages to attract population than Illinois, Iowa, Wisconsin and Michigan possessed in 1850. The state is interspersed with fertile valleys and rolling plains covered with nutritious grasses, which furnishes excellent grazing land for stock raising. The climate is healthy, and the medical profession throughout the country is becoming more generally cognizant of this fact every year. The soil is a light sandy loam in the upland, and in the valleys has a dark, rich appearance, which when irrigated produces bountiful crops in cereals and vegetables of all kinds. Wyoming has an area of 43,000,000 acres of land that is subject to entry under the government land laws, and 10,000,000 acres of this is suitable for agricultural purposes when properly irrigated.

One of the finest groups of hot mineral springs to be found in the world is located near Thermopolis, at the northeastern corner of the reservation. If Wyoming were nothing but a barren waste it would still be known to the civilized world through the wonderland of the earth—the Yellowstone national park. The scenic wonders of this great geological region are nowhere repeated in nature, which gives the Yellowstone park an individuality that makes it stand out prominently far beyond anything offered elsewhere to the world's army of sight-seers. Its wonderful colorings and shadings are beyond description, and the artist does not live who can truthfully portray on canvas the beauties of this world's wonderland.

Vast Country to be Developed.
A vast territory as rich in mineral deposits and agricultural requisites remains to be explored on its onward march to the Pacific as was found in the early history of Illinois, Iowa, Wisconsin, Michigan and Minnesota. As this article goes to press, eighty round steel rails are being spiked to the cedar ties along the right of way which extends the Wyoming and Northwestern from Casper to Lander, a distance of 145 miles, which links Chicago and the great commercial points along the big Chicago & Northwestern system with another great land proposition. This new extension will land passengers directly on the Shoshone Indian reservation, which the government opens to settlers June 15, 1906.

It is conservatively estimated that \$10,000,000 will be spent during the next decade by the federal government in carrying out irrigating projects in the state of Wyoming, which have already been submitted for consideration. The amount of good this great undertaking will do the state and humanity in general cannot be correctly estimated. Thousands of workmen will be given an opportunity to take up land and at the same time secure employment from the government in constructing the big reservoirs and ditches. By this method the workman who ventures into the land of opportunity is guaranteed steady employment and at the same time has a chance to take up a quarter section of land and improve it during the construction of the irrigating ditch. Opportunities of this character never presented themselves in the early history of the Central and Eastern states. The pioneers that built up and developed the country during its primitive state experienced hardships and privations that the homeseeker of today knows nothing about. In those days it was a case of weeks and months of travel, with an ox team and prairie schooner, to find the land of opportunity. Today the Northwestern line lands the homeseeker at the very door of his claim and the government provides him with a quarter section of land and a position on the irrigating ditch if he desires to work. No more hardships like our fathers and grandfathers experienced during the early history of the Central states. Pioneering on a homestead in the West today is more like an "outing" or vacation, where you throw off the weary garments of toil and become a free man. Here the superior officer does not figure in your daily work and the automatic timekeeper is blotted out of your memory. The state of Wyoming has an area of 10,000,000 acres of timber land, which offers inducements to the man who

portunities of this character never presented themselves in the early history of the Central and Eastern states. In those days it was a case of weeks and months of travel, with an ox team and prairie schooner, to find the land of opportunity. Today the Northwestern line lands the homeseeker at the very door of his claim and the government provides him with a quarter section of land and a position on the irrigating ditch if he desires to work. No more hardships like our fathers and grandfathers experienced during the early history of the Central states. Pioneering on a homestead in the West today is more like an "outing" or vacation, where you throw off the weary garments of toil and become a free man. Here the superior officer does not figure in your daily work and the automatic timekeeper is blotted out of your memory. The state of Wyoming has an area of 10,000,000 acres of timber land, which offers inducements to the man who

Shoshone Reservation.

It contains 1,140,000 acres of land, a third of which is adaptable for agricultural purposes and the remainder for grazing, stock and dairy pursuits. It is bounded on the east by the Big Horn river and on the south by the Wind river, which, together with numerous small streams and springs furnishes ample water supply to settlers who will gobble up this valuable tract the moment Uncle Sam gives the signal.

Never in the history of the world has there been such a demand for public land. The great rank and file of Americans who labor with their brains and brawn seem to have suddenly discovered that land is the foundation of all wealth. The serious misunderstanding between capital and labor in the large trade centers has been making converts rapidly for the gospel of free homes, pure air and independence. On account of the industrial depression in the great European trade centers, many home seekers have been attracted across the Atlantic, who, after a thorough investigation of the situation, have crossed into Uncle Sam's domain, filed on a

sheep country. Thousands of tons of wool and thousands of head of cattle are shipped from Casper to the Eastern markets yearly. The soil is composed of a deep black loam formed upon a subsoil of clay of unusual depth. It is very fertile, easy to cultivate, and with irrigation produces crops of cereals, vegetables and grasses that would actually astonish some of the old time farmers in the East. Some of the principal streams are the Big Horn river, Wind river, Crow creek, Muddy creek, and numerous other streams of less importance.

In the immediate vicinity of Lander, where the government office will be located for the distribution of these lands, small experimental farms have been in operation for a number of years. During this period there has never been an entire crop failure since the first settler erected his sod house, broke the first furrow on his new land and planted his first crop.

The region also seems to have all the indications that point out the way to a great storehouse of mineral deposits. The towns of Lewistown, Atlantic City, and South Pass in Fremont county, have produced millions of dol-

lars in gold and silver. Knowing ones claim to know where gold and silver ores are stored in the Owl Creek mountains in the northern part of the reservation.

On the border line of the reservation in the northeast corner is the town of Thermopolis, where the United States government will in all probability erect a soldiers' and sailors' sanitarium on account of the wonderful curative qualities found in the extensive hot springs located here.

Indications that point to a petroleum pool near Lander will no doubt be thoroughly followed up as soon as the railroad is completed. Beds of coal, mica, asphaltum, petroleum, tin, building stone, and iron are found in this vicinity, which increase the inducements offered the homeseeker, and create possibilities the results of which no one can estimate until the mines are developed. The reservation abounds in fish of all kinds, and big game, such as deer, elk, bear, and antelope.

Town lots have been selling rapidly ever since the Northwestern surveyed their line. Golden opportunities await the business, professional and laboring man in twenty of the new town sites, now building up between Casper and Lander.

Government Land Irrigation.

In June, 1902, the government passed a law known as the national reclamation act for the purpose of providing large tracts of Western land with sufficient water supply to trans-

form a desert waste into a garden spot. It is said in California that if you plant gold dollars in the ground and sprinkle it with water they will actually grow, the soil is so rich. Without irrigation California could not produce enough fruit and vegetables to supply the dining car service on the Overland Limited, yet California fruit and vegetable lands are the highest priced lands on the face of the earth, all on account of the irrigating ditch.

Two of the most important government irrigating propositions are located in the Chicago & Northwestern. One of 36,000 acres is in the Belle Fourche district of South Dakota, in the Black Hills country; the other is known as the North Platte project, at Alameda, Wyo., fifty-two miles south of Casper, the present terminus of the Northwestern line, where 250,000 acres of land will be placed under irrigation.

Largest Irrigation Ditch.

Nothing in the history of land development compares with the magnitude of these two great undertakings. It is a proposition where the homeseeker barricades himself against the

present line into the Black Hills at Rapid City. This was the "pioneer" line into the Black Hills and is responsible for developing the richest 100 miles square of mineral lands on the face of the globe. The new line will attract thousands of settlers into South Dakota during the new year and will be the means of offering golden opportunities along the line in the way of town lots, farm lands and business enterprise.

New Lines in Wisconsin and Michigan.

Northern Wisconsin and the Upper Peninsula of Michigan, gridironed with a network of tracks of the Northwestern line, present an entirely different proposition to the homeseeker than is provided in the agricultural lands of South Dakota and Wyoming. Here there are millions to be made in timber lands and the lumber trade, and millions are being taken out of the mines in the iron and copper district.

Thousands of acres of "stump" land in Wisconsin, that produce bounteous crops are open to the homeseeker on reasonable terms. Thousands of acres of timber lands are open to settlers on easy terms. Here the industrious homeseeker can market enough timber from his own quarter section every year to not only pay his living expenses and meet payments on the land, but also realize a sufficient sum to pay for clearing the land for agricultural purposes. "Stump" land and timber land are two different propositions that are attracting thousands of homeseekers to the northern woods country. New factories and dozens of giant industrial enterprises are being constructed daily in this busy section of the country.

On account of the wonderful water power awaiting development in dozens of the cities in this northern country, the manufacturing possibilities are beyond comprehension. In many locations paper mills would succeed on account of the excellent water power, and thousands of acres of timber land in close proximity that could be manufactured into wood pulp at a cost that would enable the manufacturer to compete with any competitive plant now doing business. Tall chimneys of the great factories pierce the sky in nearly all the cities in the northern woods country. Dozens of factories that depend on iron, copper, hard and soft timber for material are in operation, and dozens will be erected in the new towns now being developed.

Steel Rails Being Laid.

Steel rails are now being laid on new lines of the Northwestern system from Manitowish to Lake Michigan, through Green Bay, into the heart of the hardwood district in northern Wisconsin, at Gillette and Eland Junction. Another important branch is being constructed from Laona, Wis., to the Brule river, at Saunders, Mich., which opens up another undeveloped timber and agricultural country. Still another branch will soon be completed that runs northwest from Mercer into the undeveloped territory of the Presque Isle hardwood district.

A number of these new branches are already completed, and new towns are springing up like magic, which extend a helping hand to men of small capital, who can realize large returns on their investment, that will continue to grow into money as the country develops.

Cities With Great Futures.

Thriving communities, and new towns are being opened up daily along the new extensions of the Northwestern line, where "profitable opportunity" awaits the merchant, banker, farmer, miner, mechanic, educator, minister, doctor, and laboring man. Unlike the old system of hunting up "golden opportunities" with a prairie schooner and an ox team, the Northwestern system furnishes low rates to homeseekers and has established an industrial information bureau that gives reliable facts concerning inducements offered capital seeking investment by the various communities along the road and the natural facilities presented to the land-seeker looking up a location to establish his future home.

wishes to engage in the lumber business. Five million head of sheep were marketed last year from the state, valued at \$17,500,000, which is another occupation worthy of note. Six million dollars' worth of wool was marketed last year from the herds of sheep that graze on the nutritious grasses in all parts of this great wonderland of resources. Vast iron, coal and precious metal deposits are found in paying quantities and mined cheaply. One of the finest groups of hot mineral springs to be found in the world is located near Thermopolis, at the northeastern corner of the reservation.

If Wyoming were nothing but a barren waste it would still be known to the civilized world through the wonderland of the earth—the Yellowstone national park. The scenic wonders of this great geological region are nowhere repeated in nature, which gives the Yellowstone park an individuality that makes it stand out prominently far beyond anything offered elsewhere to the world's army of sight-seers. Its wonderful colorings and shadings are beyond description, and the artist does not live who can truthfully portray on canvas the beauties of this world's wonderland.

Vast Country to be Developed.
A vast territory as rich in mineral deposits and agricultural requisites remains to be explored on its onward march to the Pacific as was found in the early history of Illinois, Iowa, Wisconsin, Michigan and Minnesota. As this article goes to press, eighty round steel rails are being spiked to the cedar ties along the right of way which extends the Wyoming and Northwestern from Casper to Lander, a distance of 145 miles, which links Chicago and the great commercial points along the big Chicago & Northwestern system with another great land proposition. This new extension will land passengers directly on the Shoshone Indian reservation, which the government opens to settlers June 15, 1906.

quarter section of land, and today are as independent as the sovereign who ruled over them during their dark hours of depression. The United States government reports show that nearly as many home seekers pass over the border line at Winnipeg into the United States as come through the port of New York.

Claim Shanty Castle.

Out on the broad prairies of opportunity the claim shanty is a castle where the homeseeker reigns as supreme as a king on his throne. It is a home of your own, where the rent collector never figures in your monthly obligations, where the green grocer, the milkman, and the butcher's weekly statement never reaches your door. It is a new world bubbling over with hope and full of great expectations. Every breath of pure air inhaled into your lungs seems to invigorate your system with renewed ambitions.

The government homestead is a sort of barricade provided by the all-wise Creator where one can get away from life-long friends gracefully, have a chance to reflect over the silly mistakes of the past, commune with Nature, make two blades of grass grow where only one grew before, and sidestep any objectionable proposition that presents itself.

The Shoshone reservation will be the only public land thrown open to settlement next year, and for that reason the demand for this valuable tract will no doubt make ten applicants for every quarter section. The 1,140,000 acres of the Shoshone reservation contain the cheapest lands offered the homeseeker since the great rush for Dakota lands in 1879. The homeseeker who secured a piece of Dakota land at this early date is a rich man today.

The Character of the Soil.

The land in the Shoshone reservation is far superior in many respects to some of our older settled districts. One-third of the land is what might be termed agricultural. The remainder of the land is a perfect cattle and

largest combined population of any commercial center in South Dakota. These two great mining towns and many smaller communities, including Whitewater, Rapid City, Sturgis, and Hot Springs, are within a few hours' ride by rail of this great irrigating proposition, and will furnish a home market for thousands upon thousands of dollars' worth of farm produce yearly.

Belle Fourche is the largest cattle shipping point in the great Northwest. Thousands of head of range cattle are fattened here for market and thousands of head are fed in this vicinity in the winter months.

Belle Fourche, the headquarters for this great irrigating undertaking, has been a prosperous community for years, and offers wonderful inducements for business men in all branches of trade.

Pierre to Rapid City.

An important extension of the Chicago & Northwestern railway that will aid materially in developing this irrigating proposition is now being completed between Pierre, the capital of South Dakota, and Rapid City. This new line will not only aid in attracting the homeseeker to the many inducements offered in the irrigating district, but will open up millions of acres of agricultural and grazing land subject to homestead entry in South Dakota west of the Missouri river.

This new line, which extends across the entire western half of South Dakota, will form a junction with the

elements. He need not bother his brain about the barometer and weather bureau. In the winter months, on the proceeds of his sure crop, he can make faces at the thermometer, and in summer the question of rainfall does not interest him.

In the Alameda district the government has set aside \$2,500,000 for the completion of the Pathfinder dam and ditches, which will furnish a storage capacity of 2,000,000 acre feet, capable of reclaiming and irrigating 250,000 acres. The soil is a rich sandy loam, and under government test is found to be capable of producing wonderful crops of small grain and vegetables of all kinds and varieties.

This reservoir will cover thirty miles of territory, and the water supply will be taken from the Sweet Water river by means of a gigantic granite dam six miles below the mouth, 210 feet high, 80 feet long at the base, and 250 feet long at the crest, cemented in a box canyon of granite that centuries of use would not affect.

This canal is the longest system of irrigating ditches in the world.

Belle Fourche Project.

In the Belle Fourche district the government is pushing to completion a \$2,500,000 irrigating ditch and reservoir that will reclaim 56,000 acres. The water for this gigantic undertaking will be secured from the Belle Fourche river, about one mile from the town of Belle Fourche, and transferred by gravity to a reservoir or lake bed, consisting of fifteen square

pair; First ward. This is a good one for the price, \$2800.
FOR SALE—7-room house and lot, First ward. City water, cistern, gas. All in good repair. Owner leaving town. Price, \$1400. Will rent for \$12 per month.

FOR SALE—First ward, 7-room house and barn, city water, cistern, good location. Cheap at \$1400.

FOR SALE—Fine lot on Pearl street, with small building. A starter for house or barn. Good location. Price, \$500. The lot alone is worth the money.

FOR SALE—8-room house and lot; Fourth ward. Well and cistern, with electric lights. A good home for the price, \$1500.

FOR SALE—8-room house and lot on Cornelia street, Second ward. All in good repair; good place. Price, \$2500.

FOR SALE—20 acres, one mile west of city, with house, barn, tobacco shed for 7 acres tobacco, good well, best of land for beets and tobacco. Within one-half mile of loading station. A bargain.

68,000 acres of land in Northern Texas, Baylor county, adjoining the Wichita Valley R. R. This is fine prairie land, soil black loam, adapted to any kind of farming. Plenty of good water at a depth of from 25 to 35 feet. A new tract of land just put on the market to be sold in any number of acres from 40, 80, 160, or any amount to suit. Small payments and easy terms to buyers. This is one of those opportunities where you can get a good farm at a small price. One crop will pay for the land. All kinds of fruit and garden truck grow in abundance. Prices from \$5 to \$15 per acre. Excursion every two weeks.

FOR SALE—20 acres just outside of city limits. Soil black loam, fourteen acres in cultivation, six acres pasture; a fine fruit, poultry and tobacco farm. Large brick house in good repair; good barn; two large sheds for tobacco; two hen houses;

good well and windmill; two large cisterns; lots of fruit of all kinds. Located on main traveled road. This is splendid land for truck gardening, high state of cultivation. Owner's reason for selling is to get larger farm.

Small four or five-room house and lot near Monterey. Good little place for the money. Small payment. Price \$650.

FOR SALE OR EXCHANGE—160 acres of heavy timber land in Lincoln county, Wis. Twelve acres tamarack, eight acres of cedar, balsam, maple, oak, birch, basswood, and hemlock. Situated nine miles from Rhineland; one and one-half miles from Irma; R. R. town one mile from river. Small house and barn, five acres in cultivation. This is nearly all low timber. Will take house and lot in Janesville as part payment. Price, \$1250 per acre.

FOR SALE—A nice six-room cottage in first ward, good location, fine lot. City water, cistern, gas, nice cellar. All in good repair. Price \$1500.

SEVEN ROOM HOUSE AND BARN—First ward; well and cistern, nice fruit trees. All in good repair. Good location; nice home for you. Price \$2300.

= FORTY YEARS AGO =

Janesville Daily Gazette.—Would a Rose Smell as Sweet By any Other Name?—The gentlemen who met at the Court Room Saturday night, to nominate candidates to be supported at our charter election, have designated their ticket as the "National Union." It is said a rose by any other name would smell as sweet, and for similar reasons, a genuine copperhead ticket will be as objectionable to the patriotic men of this city, as if sailing under its true colors. If you call a sheep a dog, it does not make a dog of it for all that.

A Card.
Messrs. Editors:—I have been informed that I have received a nomination for School Commissioner, as a meeting held for making nominations, at which Mr. Anson Rogers was Chairman. I respectfully decline accepting any nominations from a meeting at which the above named gentlemen presided.

A Card.
Editors Gazette:—I desire through your columns to say to the electors of the City of Janesville, that the nomination which I received from a Convention which met on Saturday even-

ing, for the important and responsible office of Sealer and Weights and Measures, was without my knowledge or consent. As it would be impossible for me to give any of my time or attention to the office, I respectfully decline.

National Union Convention.—The voters of Janesville favorable to the policy of President Johnson met at the Court Room on Saturday evening, March 31st, pursuant to a call, for the purpose of nominating city officers for the year ensuing. The following were placed in nomination:

Per Mayor, J. B. Doe; City Clerk, H. D. Sexton; Treasurer, Chas. P. King; Justice of the Peace, Moses Prichard; Sealer of Weights and Measures, John Griffiths; School Commissioner, Dr. J. B. Whiting.

On motion the following city committee was appointed: J. B. Doe, A. C. Bates, H. S. Sheldon.

Meeting at the Court Room—This Evening.

Remember the Republican meeting at the Court Room this evening. Spirited speeches will enliven the occasion. Turn out and get ready for business tomorrow.

I shall construe the evidence, nor what my decision will be in the premises. Your remark is, therefore, entirely uncalled for.

"Your honor shook his head." "True," said the Judge; "there was a fly on my ear. And I'll have you know, sir, that I reserve the right to remove a fly in whatever manner pleases me."—Harper's Weekly.

Samuel W. Pennypacker.

GOVERNOR OF PENNSYLVANIA

Not Ostiches. Ralph Adams Cross, author-architect, was talking about a wealthy amateur painter. "A lady," he said, "paused before his latest picture at one of his studio teas and cried enthusiastically: 'Oh, perfect! Mr. Smear, these ostiches are simply superb. You should never paint anything but birds.'"

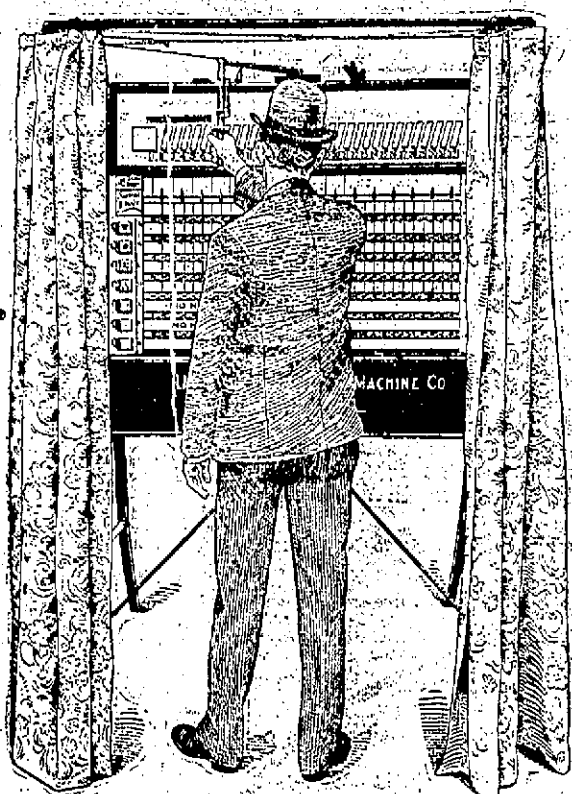

"Smear winced. 'Those are not ostiches, madam; they are angels,' he said hurriedly."

OFFICE OF CITY CLERK, March 26, 1906.

DIRECTIONS FOR VOTING ON THE VOTING MACHINE: 1st. Close the curtain. 2d. Pull the Yellow Lever having on it the names of your political party over to the Right until the Bell rings. (This will turn down the Pointers over the names of the candidates in your party.) 3d. If you wish to vote a Straight Party Ticket, leave the Pointers as they are (Down) in their voting position. But if you wish to "split," or "scratch" your ticket, turn up the Pointer from over the name of the candidate in your own party that you wish to cut out, and then turn down the Pointer over the name of the candidate you wish to vote for that office, and leave it there. 4th. Vote for the Judges in columns No. 15 and higher, by turning down a Pointer over each name you wish to vote for, and leaving it there. (As these are non-partisan officers, they must each be voted for individually, as their Pointers are not turned down by the pulling of the Party Levers.) 5th. Open the Curtain. **NOTE**—unless you are sure that you know just how to operate the machine, it would be well for you to practice on some machine before election day.

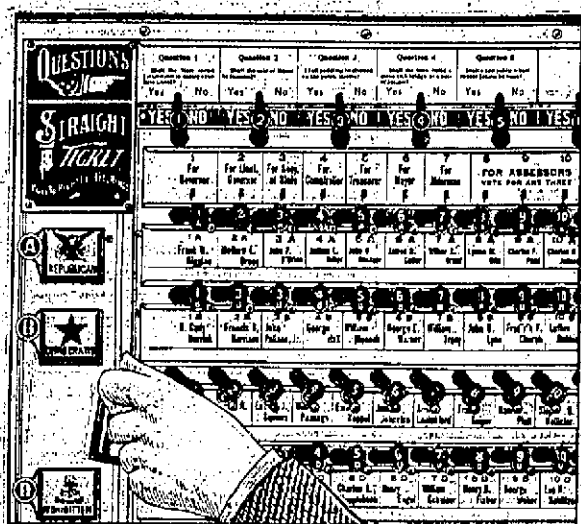

Move the Red Handle of the Curtain Lever to the right as far as it will go.

This will close the Curtain around you, and unlock the machine for voting.

VOTER ABOUT TO CLOSE THE CURTAIN.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

VOTER PULLING OVER PARTY LEVER.

The turned down Pointers indicate the names of the candidates for whom the vote will be cast.

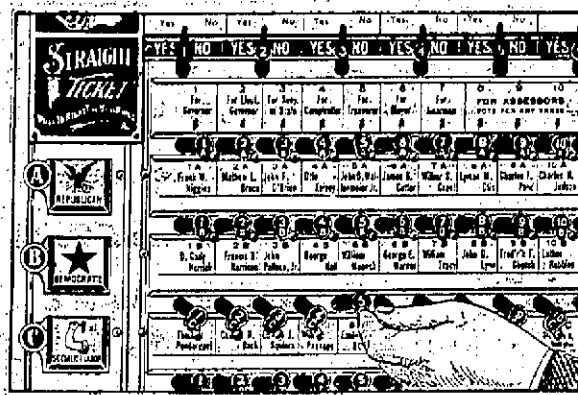

Leave the Pointers as they are (down in a voting position).

Move the Red Handle of the Curtain Lever to the left as far as it will go.

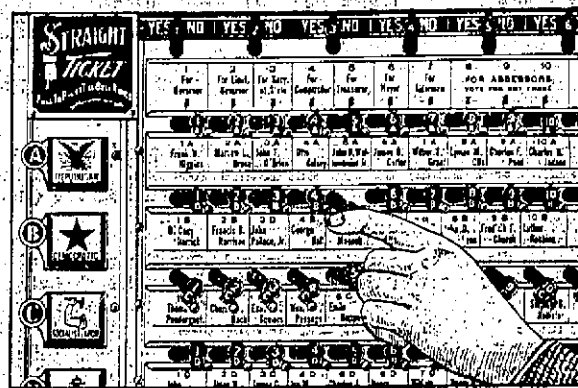

This will count your vote, open the Curtain, and set the machine for the next voter.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

Turn back (up) the Pointer from over the name of the candidate you wish to cut. See illustration below.

And then turn down a Pointer over the name of the candidate you wish to vote for for that office. See illustration below.

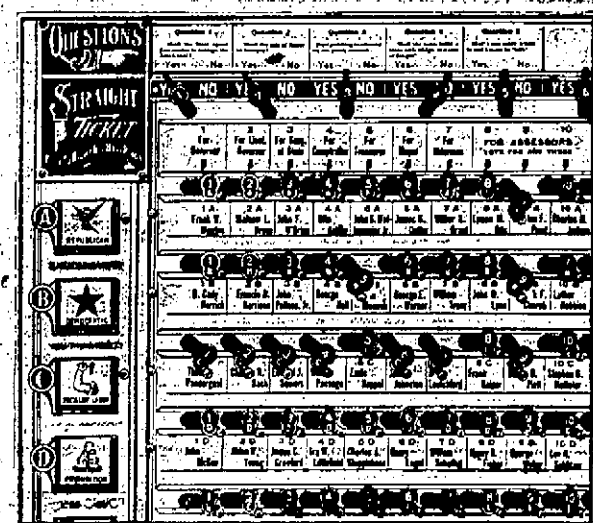

Be sure to complete each Split before making another.

For an office to which two or more candidates are to be elected, the required number of candidates can be voted for, and no more, regardless of position.

After the vote is arranged, move the Red Handle of the Curtain Lever to the left as far as it will go. This will count one vote for every candidate that has a Pointer left down over his name.

To vote Yes, turn the Question Pointer to the word Yes, and leave it there. To vote No, turn the Question Pointer to the word No, and leave it there.

THE ABOVE CUT SHOWS

That the voter has voted Party Lever "C" and then—
Split his vote for Treasurer, on Column 5.

That he has voted for Assessors, voting for three on Column 9 (for which office he is permitted to vote for *any three* candidates on either of the Columns, 8, 9, and 10).

That he has voted "Yes" on Questions 1 and 2.
That he has not voted on Questions 3 and 5.

That he has voted "No" on Question 4.
If the voter desires, he may make any further changes while the Curtain remains closed, as the vote is not registered until the Curtain is opened.

The Pointers must be *left down* over the names to be voted for. If the voter turns them back the vote will not be counted, as the opening of the Curtain turns back the Pointers and counts the vote.

**STRAIGHT
TICKET**

• **Enail** Chapter 552 of the Laws of 1906, entitled "An Act" to provide for the use of the pocket ballot and coupon voting system, and to amend Section 45 Statutes of 1898 be adopted?
